SUMMER HOROSCOPES

Capricorn

You'll welcome summer 2019 with open arms because you are really feeling the need to relax and recharge your batteries. Your work tasks are building up, but your motivation and determination are waning heavily. Financially your summer could be a little difficult and going forward you'll need to start budgeting better.

Taurus

Summer 2019 will breathe some fresh energy and tenderness into your relationships. The moment has come for Taurus people to look to the future and concentrate on following their paths; wherever they may lead. Summer is a great time for our Taurus friends to relax and recharge their batteries after several difficult months at work.

Gemini

When it comes to your love life, your relationships will be full of passion, sensuality and deep attraction, although the thought of working over the summer months will leave you feeling a little deflated. Your optimistic side means you are incapable of seeing negatives everywhere; hang in there, Gemini things will get better soon.

Cancer

At work you feel frustrated at not seeing your projects advance as you had hoped they would. In the lead up to your vacation you'll definitely have the blues, Cancer, but we know for sure that some time away from the daily grind will put a smile back on your face. After all, Cancer, summer is your favorite season and it would be a shame not to enjoy every minute of it. A vacation with your family is exactly what you need, Cancer.

Leo

Summer 2019 will get off to a tricky start and you'll find it difficult to completely block out your worries and sources of stress. Your job and professional responsibilities will cause you lots of stress this summer. The summer season is perfect for you, Leo and will give you the boost of confidence you need to feel good about yourself. As for your finances, buy yourself a little gift!

Virgo

Whether you are already in a relationship or single, the passion and sensuality are palpable and will leave you on cloud nine. We sense you are really looking forward to getting away from your working duties, Virgo, as well as your tedious daily routine. Savor every moment of summer 2019, Virgo and try to relax and block out your problems for a bit.

Scorpio

The buildup to summer has been a little tense and strenuous for you, Scorpio and unfortunately summer 2019 won't be any different. Your mind is everywhere and you'll have trouble focusing your energies on any one thing at a time. Trying to wind down will bring you closer to your family and friends this summer.

Libra

Summer is finally here, Libra, so make sure all the loose ends are tied up and head far away to a paradisiacal beach to get in some serious relaxation. If you are in a relationship, remember your partner needs attention and wants to spend time with you too. Getting the balance right between your professional and private life is essential for a good summer.

Sagittarius

The problem is you feel like you are responsible for everything and everyone, but that's not the case. Sagittarius, the good news is your summer 2019 will be filled with amazing discoveries, exciting journeys, potential compatible love matches and fun parties with your friends and family by your side.

Aries

Summer 2019 will see you accomplish your goals and chase exactly what you want, especially when it comes to love. If you are single, your levelheaded attitude will help you figure out what you really want and need. Summer 2019 won't be all fun and games for Aries people, but their hard work will be rewarded financially at the end of summer.

Aquarius

Here is some good news; at the beginning of summer you can expect to be rewarded for your efforts at work. You'll start the summer season with a positive attitude and will definitely be excited for your well-deserved vacation.

Pisces

Your summer might get off to a slow start both in matters of love and work, but Jupiter will help open new doors and possibilities for you. Pisces, concentrate on making yourself happy this summer and be sure to put yourself first. People will find you irresistible this summer, Pisces and when you step out everyone's eyes will be on you
