Current Private Students: >100 | Group Clinics: 8 | Tournaments Run: 8

PICKLEBALL BIO

Rob has been an instructor at Life Time since January 2023 and a sanctioned Tournament Director. Building on his prior tennis experience as a player, instructor, and Coach, Rob focuses on building the correct technical foundation for all strokes required to play at all levels. Coach Rob continues to help players then develop their tactical strategies as well as physical conditioning. Unlike many instructors, Rob will incorporate learning aids such as exercise bands, medicine balls, and unique techniques that help retrain the brain to deliver proper muscle memory. Rob coaches players at all levels from beginner to advanced players attempting to break beyond the 4.5 level. And most recently now a certified DUPR Coach and Master Teach the Teacher Instructor.

DID YOU KNOW THIS ABOUT COACH ROB?

Rob has two children ages 10 and 12 and when he's not with them, playing or teaching Pickle, or working out, Rob is a Software Marketing Executive and has traveled the world, even once going to Singapore for a quick 2 hour meeting and also presented to customers in 6 countries in Europe in one week. Rob also runs a men's softball team during the summer and is the co-founder of the charity Play for a Cause as well as founder of Boston Pickleball Association.
