Access & Navigating the NC AOC Mainframe System

Thank you for your interest in accessing the NC AOC Mainframe System. We appreciate your business, and we want to ensure your experience with our mainframe access service is not a challenge for your end user. To understand this, you must understand our services only provide access to the mainframe and do not provide any type of navigation support. Due to this, we highly recommend the end user to be familiar with support documents which are made available here: <https://nccourtrecords.com/support>

If the end user is not familiar with the mainframe system, it will be a challenge and a waste of time and access dollars to your company as we provide no refunds in accessing the mainframe. We intend to be upfront regarding this because we want our access services to be rewarding, instead of challenging.

If your end user is familiar with the mainframe and ready to begin access, please sign and return this document. Please note, as of 10-14-2024, there are only 52 of 100 NC Counties available on the mainframe system. The mainframe system is slowly being migrated to the Enterprise Justice (Odyssey) system. If you need to access the Odyssey system you can learn how to access it at NCcourts.gov/ecourts.

Again, thank you for your interest in our services.

The undersigned has read and understands the contents of this document.
