Software and Solutions

Zebra Workcloud™

Zebra Workcloud is composed of market-leading suites purposefully developed to engage your employees, enable enterprise collaboration and optimize your inventory or demand planning. Each suite provides modular solutions ideal for your priorities and easy to scale.

Zebra Workcloud Workforce Optimization Suite™
Optimize scheduling, raise productivity and empower your workforce by giving associates more control over their schedules and daily work, for greater flexibility and work-life balance.

- **Zebra Workcloud Scheduling™**
  Optimize budgeting, forecasting and scheduling to empower your employees and better align staffing with demand.

- **Zebra Workcloud Task Management™**
  Simplify work and streamline task execution for a more efficient, higher performing operation.

- **Zebra Workcloud Timekeeping™**
  Keep your employees and your operations compliant while optimizing time and attendance.

Zebra Workcloud Enterprise Collaboration Suite™
Empower front line employees with enhanced communication capabilities for easier collaboration and better customer service.

- **Zebra Workcloud Communication™**
  With push-to-talk and voice calling capabilities, make it easier for the front line to communicate and collaborate across your organization.

Zebra Workcloud Inventory Optimization Suite™
Advanced analytics improve visibility, merchandising compliance and loss prevention activities, allowing you to satisfy customers and maximize profit potential by ensuring your inventory aligns with shifting demand and is both accurate and available for purchase.

- **Zebra Workcloud Actionable Intelligence™**
  Discover cost savings in your data and instantly communicate corrective actions to your front line to regain lost revenue, boost sales, reduce shrink and improve inventory accuracy.

- **Zebra Workcloud Inventory Visibility™**
  Our turnkey, self-scan inventory counting solution ensures the high accuracy and improved visibility retailers need to meet today's customer expectations.

- **Zebra Workcloud Inventory Planning**
  powered by antuit.ai
  An orchestrated inventory management solution that connects pre-season planning and in-season execution to optimize agility, mitigate risks and drive organizational alignment.

- **Zebra Workcloud Inventory Ordering**
  powered by antuit.ai
  Achieve remarkable precision in inventory ordering and execution for on-time fulfillment, reduction of out-of-stocks and alignment to consumer demand, to optimize your allocated shelf space.

Zebra Workcloud Demand Intelligence Suite™
Leveraging cutting-edge AI and ML technologies to accurately forecast and analyze demand to meet various retail challenges across your organization.

- **Zebra Workcloud Forecasting and Analysis**
  powered by antuit.ai
  Receive the intelligence, insights and innovation to drive greater value for your organization from a library of proven algorithms designed to analyze retail use cases across forecasting, demand sensing, optimization and more.

Zebra Workstation Connect™
Transform Zebra mobile computers and tablets into mobile-driven workstations and POS stations, on demand. This powerful software solution doubles the functionality of your Zebra mobile device—increasing workforce efficiency, improving store operations and your return on investment.

Zebra SmartLens™
Turn your entire store into a smart store that automatically senses and records the location and movement of virtually everything in your retail space—merchandise and assets—and turns that data into easy-to-read actionable intelligence that helps prevent shrink and theft.

Zebra MotionWorks™ Enterprise RFID Reader Management
Easily deploy, configure and manage a network of Zebra RFID fixed readers from one consolidated application, without requiring multiple tools to manage different types of readers.

Zebra Aurora™ Software Suite
Expertly optimized, Zebra's machine vision and fixed industrial scanning software offers a range of products, utilities, features and tools to assist with every step in the development process. User-friendly interfaces are optimized for Zebra hardware, and easily integrate with a broad selection of cameras, vision controllers and third-party systems. Deep learning and 3D vision expertise are engineered into the software, while online training and support platforms help users reduce training time to bring solutions to market faster.

Zebra Intelligent Cabinets
Keep your assets and workflows functioning together with optimal security. Zebra Intelligent Cabinets offer end-to-end storage solutions, software automation, security applications and ongoing support to maximize the use and productivity of your enterprise mobile computers, mobile printers and tablets.

Zebra Dimensioning™
Zebra Dimensioning Certified Mobile Parcel captures accurate parcel dimensions and calculates shipping charges on Zebra mobile computers with a press of a button. And Mobile Parcel provides visibility into parcel dimensions to improve planning.

Zebra Symmetry™
Symmetry is cloud-based robotics software that gives you complete control of your robots and automation by deploying and fully integrating a wide range of automated workflows into your warehouse and manufacturing operations.

Zebra Pay™
Zebra Pay is the industry's first integrated enterprise-class SPoC-based mobile payment solution, enabling enterprises to accept all major card brands, anywhere, on compatible Zebra mobile devices. This EMV L3-certified cloud-based solution supports tap-to-pay, chip and magstripe, complete with PIN entry on Zebra mobile computers and tablets.

Global Services[1]

Zebra Professional Services

Adding innovative technology is critical to your success, but it can be complex and disruptive. Leverage Zebra's Professional Services know-how to map out your needs and help prioritize what's important. We'll bring your teams together to collaborate, put the tools in place to help you rapidly deploy solutions, and then test them to ensure they meet your performance targets and expectations to be confident in your tech decision.

- Better Built Solution
- Faster Completion
- Better Adoption
- Better Solution Management

Optimize Operations. Satisfy Customers. Drive Profits.
Zebra Professional Services

Zebra OneCare Maintenance Plans[1]

Constant peak performance and device uptime—that's the upside of protecting your investment with Zebra OneCare services. Reduce device vulnerabilities, eliminate unexpected disruptions and unbudgeted repair expenses while enabling predictable performance, critical operations and improved business outcomes.

Pick the maintenance and support plan that's right for you, right for your device, right for your budget and right for your business. We understand one size doesn't always fit all. The choice of plans and flexible enhancements makes it pain-free to engage with Zebra experts for your ongoing support needs. All OneCare plans for mobile computers and scanners include access to VisibilityIQ OneCare[2], a cloud-based tool providing detailed insight into repair and support information, contracts, case lifecycle reports, LifeGuard™ Analytics, repair on-time delivery, repair rates and top repair metrics reports.

Technical and Software Support (TSS)
Available if a repair support plan is not purchased, you can still make sure your data is protected and you have support when needed. Access expert technical support and Zebra-exclusive security patches and software updates, including LifeGuard. This plan also provides support for software applications, both OEM and third-party.

Zebra OneCare Special Value (SV)
Right-priced protection for your value tier mobile devices and eligible printers. Coverage for normal wear and tear and device failures, 8x5 local time live-agent technical support, five-day repair turn-around time plus optional accidental damage repair coverage for value tier mobile devices.

Zebra OneCare Essential
Core service assurance. Comprehensive repair services cover accidental damage plus normal wear and tear, access to restricted software including LifeGuard security updates, 8x5 technical support, 24x7 online access to additional support materials and tools, three-day repair turn-around time and access to the Device Diagnostic Tool.

Zebra OneCare Select
Maximum device protection. Includes all features of Zebra OneCare Essential, plus next business day advanced device replacement, Standard Commissioning so devices are reloaded with settings, customer apps and software, required OS and LifeGuard versions, plus 24x7 live-agent technical support.

Zebra OneCare On-Site Support
If your devices are too vital to your business to send out for repair, or if your devices are too large or cumbersome to send in, one call can bring a Zebra-trained and certified technician to your door for one-on-one, personalized attention.[1]

Zebra OneCare Fastrack Service
This service simplifies the complete RMA process, so customers no longer have to worry about finding, boxing up and sending the non-working devices back to Zebra. This concierge style, hot swap service hand delivers the replacement device while also taking away the failed unit at the same time, eliminating due-backs. It provides maximum protection and simple engagement. One call does it all with next-day doorstep exchange service.

Zebra OneCare Battery Services Enhancements
Now, you can take the worry out of battery performance with a choice of Battery Services from Zebra. Battery Maintenance Service is available in two service levels—Standard and Premium—and extends Zebra OneCare's comprehensive coverage to the batteries in your Zebra mobile devices. And the advanced Proactive Battery Replacement Service is a prevention-based service—Zebra monitors the health of the batteries in your Zebra mobile devices and proactively sends replacements for batteries that can no longer hold a full charge, before worker productivity is impacted.

Zebra VisibilityIQ Services

Zebra's VisibilityIQ services provide deep, cloud-based insight into your devices to tell you how your devices are performing, so you can decide what next steps you can take to improve your operations and maximize productivity. Without clear, comprehensive data from the devices that run your business, you're in the dark trying to compensate with manual tracking, excessive inventory and repair.

VisibilityIQ gives you the data-driven, actionable insight when and how you need it. Get a clear view into how your devices are performing and know what next steps can push up productivity and drive down costs.

VisibilityIQ Foresight[3]
Zebra VisibilityIQ Foresight is focused on providing device health and utilization insights. The operational insights provide historical data trending, current state health and actionable predictive intelligence on what will occur if no action is taken. Its multi-source data aggregation and machine learning algorithms deliver a consolidated solution that provides color-coded insights with threshold alerts about your device inventory.

VisibilityIQ OneCare[2]
Included in all Zebra OneCare support contracts for Zebra mobile computers and scanners, the cloud-based tool provides status of device repairs, technical issues, contracts, case reports and software, LifeGuard™ Analytics, and more.

1. Service availability, Service feature and/or repair turn-around time may differ by country. Please contact your Zebra sales representative for details.
2. Zebra Mobile Computers and Scanners only
3. Zebra Mobile Computers, Zebra Remote and Stationary Printers and Zebra Scanners

---

ZEBRA DNA™
Zebra DNA is the industry's broadest suite of enterprise software that delivers an ideal experience for all during the entire lifetime of every Zebra device.

MOBILITY DNA™
Zebra Mobility DNA is a suite of enterprise solutions designed to help maximize mobile user productivity and minimize IT complexities over the lifespan of a Zebra computer, tablet or wearable device. Its secure solutions help you deploy, manage and support every stage of your devices' lifecycles.

PRINT DNA™
Durable printers are essential, but it's the software inside that will keep them in action. That's why we built Zebra Print DNA into our printers, ensuring complete integration and interoperability—now and into the future. It's a suite of software capabilities that leverages everything we've learned from thousands of use cases to make sure your printers work at their highest potential.

DATACAPTURE DNA™
Scan with abilities developed and continuously refined by a partner with more than 50 years of field-proven innovation. Zebra knows the scanning journey better than other providers. That's why we've engineered into all our scanners Zebra DataCapture DNA—a suite of software capabilities to help your team adapt to future needs and achieve greater business outcomes.

Portfolio At-A-Glance
Q3–Q4 2023

Zebra Certified Supplies

Print Confident. Print Quality. Print Zebra.

Printing supplies can impact everything from printhead lifespan to operational efficiency. That's why we produce our own line of thermal printing supplies to ensure consistent, optimized performance in your Zebra printer—and peace of mind for you.

With Zebra Certified Supplies, you get:

Unmatched thermal printing expertise
More than 30 years of experience in producing products of exceptional quality.

Exceptional service
Zebra has the scale and infrastructure to meet your printing supply needs quickly and effectively.

Consistently outstanding quality
We subject every item to rigorous testing, ensuring premium craftsmanship and durability.

Increased efficiency and productivity
Because our printing supplies are so consistent, workers experience fewer hassles and require less IT assistance, reducing downtime.

Lower total cost of ownership
Wear and tear is reduced, and the need to reprint and replace labels due to poor quality is virtually eliminated.

Flexibility and convenience
Customize products to meet your unique needs, or get hundreds of in-stock products quickly with our ZipShip™ service.

Fixed Industrial Scanners and Machine Vision Systems

Fixed Industrial Scanners
- Basic to advanced track-and-trace scan capabilities
- IP65 and IP67 rated
- Image sensors ranging from 1 to 5.1 MP

Smart Sensors and Cameras
- High-resolution image sensors from 2 to 16 MP CMOS
- Substantial processing power
- IP65 and IP67 rated
- Certain models do traditional machine vision and deep learning inference

Frame Grabbers
- CoaXPress, Camera Link, GigE Vision interfacing
- Range of inputs, connectors, data rates and pre-processing capabilities

Vision Controllers
- Embedded PC technology with desktop-level performance
- Considerable expansion capabilities
- Ideal for high-speed or multi-camera configurations
- Certain models come ready for deep learning training and inference

I/O Cards
- Real-time synchronization with 16 discrete digital I/Os
- Optical isolation and resettable fuses

3D Sensors
- High-fidelity, dual-camera single-laser design
- Embedded vision algorithms that generate 3D data in the form of individual profiles, depth maps, or point clouds

Machine Vison Cameras
- High-resolution CMOS sensors ranging from 2.3 to 12.3 MP
- GigE Vision interfacing
- Industrial grade shock and vibration ratings

Zebra Robotics Automation

FETCH100

Note: Product appearance is subject to change

Flex Series
- Supports item and batch picking
- Dynamic LED lighting improves pick accuracy
- Adjustable shelves accommodate totes, bins and boxes
- Integrates with existing WES and WMS installations
- Highly configurable picker interface

Shelf
- All-in-one material transport
- Set up and use in hours, redeploy easily
- Ideal for small and medium payloads
- Configurable shelving for bin, tote and package sizes
- Built-in, easily configured touchscreen

Connect
- Integrates into existing manual cart workflows
- Flexible cart options support a wide range of workflows
- Maximum robot utilization by decoupling robots from carts
- Triggered through handheld devices or fully configured schedules

Roller
- Automate loading and unloading of totes/bins from conveyors or ASRSs
- Flexibly extend existing conveyor workflows
- Automatically trigger induction or deduction via Zebra Symmetry software
- Integrate existing conveyor controls with Zebra Symmetry using optional IoT gateway

Research
- Research and development robot for real-world applications
- Autonomous mobile base for researchers and corporate innovation centers looking to develop mobile robotic technology

OEM Base
- Build your own customized automated solution on a proven platform
- Safe and cost-effective solution to accelerate the development of automated products and solutions for a wide range of applications

Environmental Sensors

Ready-To-Use Indicators
- Visual indicators reveal heat or freeze events of temperature-sensitive products–medications, vaccines, food, cosmetics and other
- Single-use self-adhesive indicators and cards capable of dual temperature indications

ZeOn-demand Printable Indicators
- Easy-to-read environmental indicators on a thermal printable label
- Get printed asset information and barcodes next to a visual sensor that changes color when an excursion occurs

Electronic Sensors
- Wirelessly monitor temperature-sensitive products throughout the supply chain
- Bluetooth® low energy connected data loggers enable the analysis of temperature excursions, so you can act upon them in real time

Vehicle-Mount Computers

VC8300
- Android™
- Inside the four walls
- Wi-Fi
- Touchscreen and keypad data entry
- Built for extreme environments
- Freezer-ready, internal heaters

Kiosks

Horizontal Model / Vertical Model

CC6000 Interactive Kiosk — 10"
- 10 in. proximity-sensing color touchscreen
- Horizontal or vertical mount models plus 2D barcode
- Stereo multi-media and NFC support
- Supports video conferencing with mic and front camera

CC600 Interactive Kiosk — 5"
- 5 in. proximity-sensing color touchscreen
- 2D barcode reader
- Multi-media support

ET80/ET85
- Windows®
- True laptop replacement with detachable friction-hinge keyboard
- Rugged 1.2 m drop; 1.5 m with rugged boot
- Thinner and lighter than other 2-in-1s
- Wi-Fi 6E (ET80 and ET85)
- 4G/5G (ET85 only)

ET60/ET65
- Android
- Wi-Fi 6E (ET60 & ET65)
- 5G (ET65 only)
- Rugged 1.5 m drop to concrete
- ET60 Freezer version
- Optional integrated advanced range scanning
- Multiple form factors - tablet, 2-in-1, vehicle mount computer

L10/L10ax XSLATE
- Android or Windows
- Stronger than steel magnesium frame; lighter than aluminum
- Traditional slate; thinnest and lightest L10
- 5G Options (L10ax only); 4G Options (L10)
- Wi-Fi 6E (L10ax only)
- Rugged 1.8 m drop
- Attachable keyboard creates 2-in-1 laptop/tablet

L10/L10ax XPAD
- Android or Windows
- XSlate plus rigid hard handle for easy transport
- Integrated barcode reader in handle for easy data capture

ET51/ET56
- Android
- WLAN version (ET51) and WAN version with 4G LTE (ET56)
- Rugged 1.0 m drop; 1.8 m drop with rugged frame
- Thinnest and lightest Zebra tablets
- Integrated enterprise-class scanning
- Retail ready with POS and mobile payment options

ET40/ET45
- Android
- Wi-Fi 6 (ET40 & ET45)
- 5G (ET45 only)
- Rugged 1.2 m drop; 1.55 m drop with rugged frame
- Thinnest and lightest Zebra tablets
- Integrated enterprise-class scanning
- Retail ready with POS and mobile payment options

ET40-HC/ET45-HC
- Android
- Advanced medical grade disinfectant ready plastics
- Rugged 1.0 m drop
- Wi-Fi 6 (ET40-HC and ET45-HC)
- 5G (ET45-HC only)
- Integrated enterprise-class scanning
- Zebra's first dedicated healthcare tablet

ET40/ET45 (8")
- Android
- WLAN version (ET40) and WAN version with 5G (ET45 only)
- Rugged 1.0 m drop; 1.8 m drop with rugged frame
- Optional expansion back accessory with rotating hand-strap and barcode reader

ET51/ET56 (8")
- Android
- WLAN version (ET51) and WAN version with 5G (ET56)
- Rugged 1.0 m drop; 1.8 m drop with rugged frame
- Optional expansion back accessory with rotating hand-strap and barcode reader

ET51 with Integrated Scanner
- Android
- Built-in barcode reader
- Rugged 1.2 m drop
- Includes hand strap and rugged frame as standard design
- Option for payment device

Wearables

WT6300	WS50 RFID	WS50	HS2100/3100	RS6100	RS5100	RS5000

WT6300
- Android
- Wearable terminal
- Mounting system for superior comfort, hygiene and safety
- Rugged 1.2 m drop
- Keypad accessory available

WS50 RFID
- Short range RFID reader
- Multiple mounting options
- Integrated SE4770 imager

WS50
- All-in-one Android wearable computer
- Three available mounts (Two-finger, wrist and back of hand)
- Integrated SE4770 imager
- Voice ready

HS2100/3100
- HS3100: Bluetooth headset
- HS2100: Corded headset
- HD voice
- Rugged 1.8 m drop

RS6100
- Just over two ounces and two cubic inches
- Capture barcodes in hand and out to 40 ft./12.2 m away
- Use in freezers and coolers
- Operates down to -22° F/-30° C
- IP65 sealing
- Backwards Compatible Accessories with RS5100w

RS5100
