## SONG OF THE MONTH

The story behind her powerful debut single “Peace Be Still.”

“I have found myself fighting fear and anxiety in different seasons of life and what I’ve learned is that it doesn’t always just go away because I think my way out of it, but I can worship my way through it. This song is a prayer and a weapon; a prayer of peace over everything you are facing and a weapon of worship to defeat fear, depression, and doubt. God has promised you peace.” – Hope Darst
