## TIP OF THE MONTH

The Banquet Event Order also known as the, BEO, is the most important document used on-site during a meeting or event; it is your program map, the form that enumerates all the elements of the event in great detail. BEOs are used at most hotels and event facilities to help ensure everything is outlined and agreed upon by both the venue and the client, receiving services. This helps ensure that the clients expectations are met and helps the venue avoid costly room resets or concessions.

## FALL IN MIAMI

With Autumn around the corner, there are all sorts of ways to decorate your home! Since we don't see much of a fall season in South Florida, adding some fall details will help spice up your home and bring in that warm cozy feeling that Autumn typically has. Grab your pumpkin spice candles and start designing & creating your own version of a "fall season" in the comfort of your own home that will impress your neighbors and thrill your guests.
