### Available Lesson Subjects

I believe that art lessons, should be tailored to each artist, since every art practice is unique. Below are general subject matter areas where lessons may be concentrated at the request of the learner. These are topics that I feel benefit artists at any stage of their practice. All lessons are taught by me, **Anita Loomis**. Please see my CV at [www.anitaloomis.com](http://www.anitaloomis.com) to find out more about my art practice and experience.

- 1) Lessons on general Art Elements and Principles of Design:
  - Elements: Color theory, Shape, Line, Texture, Form, Space and Value
  - Principles: Balance, Contrast, Emphasis, Pattern, Unity/Harmony, Rhythm/Movement, Proportion/Scale
- 2) Lessons using various painting tools and techniques: Watercolor, Acrylic, Oil, Gilding on paper.
- 3) Lessons on business practices for professional artists:
  - Professional art practice: marketing, finance, presentation of your work, image data management, finding exhibits, artist resources and managing gallery expectations.

### Lesson Scheduling

Scheduling is arranged with art learners for lesson times that are mutually convenient for the learner and instructor. As most lessons are private, there is great flexibility in scheduling. Art lessons can be for as short as one hour, but creative sessions are most productive in 2.5 hour intervals as time should be allowed for setup, discussion, practice and clean-up. If you are interested in lessons please give me a call at 207-703-8866 and we can chat about your art information needs and expectations.
