

MDM Design: Use Case & Functional Requirements development, Certificate Authority PKI architecture integration Endpoint Cert provisioning, compliance app protection policies, BYOD & more

MDM/UEM OEMs: InTune/MEM JAMF, Mosyle, HexNode, SOTI Kandji, WorkspaceONE, MaaS360 Ivanti, ManageEngine and more

Provisioning: Bulk MDM/UEM initial setup configuration provisioning, warehousing secure inventory storage

MDMaaS: MDM/UEMaaS MSP with 24/7/365 NOC + Engineering escalation

MDM/UEM Services Overview

JMXi has a Global team of Network & Security Engineers offering a wide range of Professional and Managed Services across all facets of Enterprise IT design consultation & implementation. MDM/UEM (Mobile Device Management & Unified Endpoint Management) is at the forefront of our key focus areas with our Engineers having years of expertise across industry leading Vendor/OEM solutions. Our Teams have successfully deployed several Million managed Endpoints having experience with Multi-National Corporations across the following industry verticals: Financial, Industrial, Manufacturing, Healthcare, Retail, Hospitality & more.

OEM's Microsoft Endpoint Manager

mosyle hexnode jamf SOTI

- **InTune:** Microsoft Endpoint Manager (MEM)/InTune design expertise across Apple, Android, Microsoft & Linux devices conditional access/configuration profile compliance/update/app protection/provision policies policy sets, endpoint security baselines EDR + PIM SASE integration, Tenant Administration & scripting
- **HexNode:** UEM, Digital Signage, Kiosk Lockdown SaaS app management, HexNode Secure Browser
- **SOTI:** ONE, MobiControl, XSight, Snap, Connect Identity, Android Enterprise, Apple device integration
- **MaaS360:** UEM integration/design for IoT Endpoints

Apple Expertise

Apple Business

- Proficient with platforms macOS, iOS, iPadOS, tvOS
- **ABM:** Apple Business Manager multi-platform/OEM integration across BYOD, COBO, COPE & CYOD initiatives; Apple Configurator, Domain Federation, App Collections/Settings, MDM Server assignment
- **JAMF:** Apple MDM, ZTNA, ZTP, Self Service, Jamf Protect, Connect, Safe Internet + Content Filtering Executive Threat Protection and App Management
- **Mosyle:** Fuse/Mosyle Business, Enhanced Endpoint Security, SSO, App Management, Internet Privacy, Security, Mosyle Auth 2, Embark, and App Catalog

Android Expertise

Android Enterprise

- Android Enterprise Mobility Management (EMM) experience with design, deployment, management of Work Profiles, Out of the Box provisioning via QR Codes, NFC Tags, EMM Token, Enterprise Google Accounts via Zero Touch Deployment setup options
- Enhanced security measures enforced via managed Google Play Store, Verify Apps API, Chrome Safe Browsing SafetyNet attestation, Android sandboxing process isolation, ASLR, TLS 1.3 & DNS over TLS
- Android Management API Extensibility via extension apps to enhance user experience & secure features

MDMaaS MSP

- **MDMaaS:** Multi-Carrier/Vendor/OEM MDM best practices & security reviews, UEM assessment/audit
- **NOC/SOC:** 24/7/365 NOC & SOC Triple-Tier UEM Engineer escalation support, monitoring, and alerting
- **SIEMaaS:** UEM Syslog Proxy filtering, log analysis REST API integrations, Proxies, and AI Add-Ons
- **Pen Testing:** Mobile App, Internal/External WiFi DAS, WebApp, Onsite Exploits, Physical Access
- **Warehousing:** Warehousing with secure inventory storage, mass MDM/UEM provisioning & OAT/UAT QA testing procedures & shipping/logistics services
