After designing many new party collections for One Simple Party during the last few months, one of my favorite items to create is the chocolate bar wrapper. Maybe its because I'm a chocolate fiend, but more likely I just like making simple dessert items look extra special on the dessert table. And chocolate bars make a such a pretty addition when all fancied up. I used to think that when dressing up chocolate bars, you simply removed the outside wrapper and added your own. I soon learned from many skilled party stylists, though, that it's best to leave the bars in their original packaging, no matter how pretty the foil from the chocolate maker is. This allows guests to know what kind of chocolate their eating and the ingredients (especially important if someone has an allergy). So, instead of just placing the chocolate bars out, you can fancy the bars up by wrapping them in your own foil lining and covering them with your own customized chocolate bar wrapper.
