

CLEARVIEW AVIATION

# Falcon 6X

THE PINNACLE OF ULTRA-LONG-RANGE LUXURY

Factory New 2026 Model Falcon 6X

## A New Era of Ultra-Premium

N448RL marks a new benchmark in ultra-long-range travel, defined by the **tallest and widest cabin** ever produced for a business jet. Shaped by Dassault's fighter-jet heritage and refined into a twin-engine flagship, the Falcon 6X delivers intercontinental performance wrapped in a cabin experience that feels more like a **private residence** than an aircraft.

Powered by Pratt & Whitney PW812D engines and enhanced by Dassault's FalconEye combined-vision system, the Falcon 6X blends capability, safety, and elegance with a suite of next-generation technologies; including an industry-first skylight, **ultraquiet acoustics**, continuously refreshed HEPA-filtered air, and the Ambiance cabin management system with seamless high-speed Wi-Fi connectivity.

N448RL represents the Falcon 6X at its most elevated expression. Outfitted with **every major factory upgrade**, it features a meticulously curated three-zone interior finished in bespoke textiles and tailored craftsmanship, creating a warm, modern, residential aesthetic that feels both effortless and intentional.

From the earliest design stages, Clearview Aviation collaborated closely with Dassault's engineering and design teams to shape an aircraft that results in a one-of-one environment; crafted with precision, depth, and restraint that **transforms every journey into an experience.**

CABIN EXPERIENCE

# Three Distinct Zones, One Seamless Journey

The cabin of N448RL stretches 40.4 feet in length, with an extraordinary 8.6 foot width and 6.6 foot standing height; proportions that turn long-haul travel into a restorative, almost residential experience. N448RL elevates that sense of openness even further with its one-of-one skylight, the only installation of its kind, bringing natural light into the heart of the aircraft. Its interior unfolds across three thoughtfully appointed zones, each crafted to support the evolving rhythm of your journey.

*Forward Club — Four-seat club with 360° swivel and fold-flat capability*

*Conference Zone — High-gloss black walnut with expandable 6 seat leaf*

*Aft Lounge — Dual divan seating converts to two twin or King sized bed*

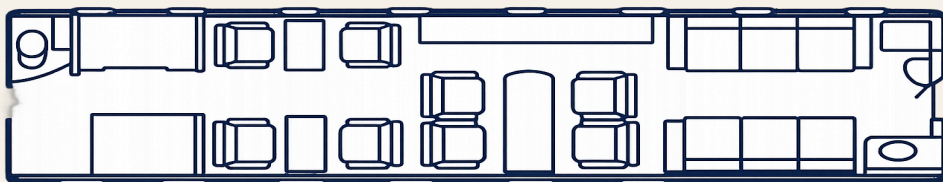

**Breakthrough Technology · 30 Windows · Cabin Skylight · Whisper Quiet · Largest Cabin · 3,700 ft Runways · Synthetic Vision**

**Factory Warranty · 24/7/365 Worldwide Support**

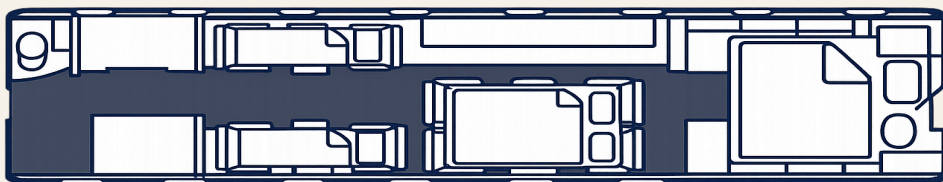

N448RL is supported by Dassault's Global FalconResponse, an elite AOG service designed to return aircraft to flying status with exceptional speed. When required, dedicated OEM FalconResponse aircraft can even provide alternative passenger lift for Clearview Clientele; an industry-first capability. Complementing this is FalconScan, an advanced, predictive health-monitoring system that identifies emerging maintenance issues long before they impact performance. **Fly Clearview.**

CABIN DIMENSIONS

# Space Designed Around You

The Falcon 6X sets the benchmark for cabin volume in the private aviation market. Every dimension has been maximized to create an environment where passengers can stand, move, and relax with complete freedom.

DIMENSION	MEASUREMENT
Cabin Length	40 ft 4 in
Cabin Width	8 ft 6 in <i>(widest cabin ever produced)</i>
Cabin Height	6 ft 6 in <i>(tallest cabin ever produced)</i>
Cabin Volume	1,861 ft <sup>3</sup>
Baggage Volume	155 ft <sup>3</sup> <i>(25+ luggage pieces)</i>
Seating Capacity	14 Passengers <i>(8 Captain Chairs + Two 3 Place Divans)</i>
Sleeping Berths	Up to 7 full-flat <i>(Including King Sized Bed)</i>

Each of the 8 club seats on N448RL are upholstered in full-grain Italian leather with hand-stitched contrast detailing. Seats recline and swivel 360°, and the forward four positions convert to a fully flat twin sized sleeping surface.

Finished in refined Loro Piana textiles, the twin divans convert independently to twin beds or unite as a full king; a first in the ultra-long-range market.

*A rich cabin that blends Ralph Lauren's tailored Americana with Loro Piana's understated Italian luxury, a fusion that reflects our signature aesthetic: timeless, warm, and quietly confident.*

PERFORMANCE

# Designed for Comfort. Built for Distance. Engineered for Speed.

The Falcon 6X is powered by two Pratt & Whitney Canada PW812D turbofan engines, delivering *whisper-quiet* thrust and best-in-class fuel efficiency. Whether connecting East Hampton with London City or Los Angeles with Tokyo, N448RL brings the world within effortless reach.
