

BRIGHT FUTURES HANDOUT ► PARENT

6 MONTH VISIT

Here are some suggestions from Bright Futures experts that may be of value to your family.

✓ HOW YOUR FAMILY IS DOING

- If you are worried about your living or food situation, talk with us. Community agencies and programs such as WIC and SNAP can also provide information and assistance.
- Don't smoke or use e-cigarettes. Keep your home and car smoke-free. Tobacco-free spaces keep children healthy.
- Don't use alcohol or drugs.
- Choose a mature, trained, and responsible babysitter or caregiver.
- Ask us questions about child care programs.
- Talk with us or call for help if you feel sad or very tired for more than a few days.
- Spend time with family and friends.

✓ YOUR BABY'S DEVELOPMENT

- Place your baby so she is sitting up and can look around.
- Talk with your baby by copying the sounds she makes.
- Look at and read books together.
- Play games such as peekaboo, patty-cake, and so big.
- Don't have a TV on in the background or use a TV or other digital media to calm your baby.
- If your baby is fussy, give her safe toys to hold and put into her mouth. Make sure she is getting regular naps and playtimes.

✓ FEEDING YOUR BABY

- Know that your baby's growth will slow down.
- Be proud of yourself if you are still breastfeeding. Continue as long as you and your baby want.
- Use an iron-fortified formula if you are formula feeding.
- Begin to feed your baby solid food when he is ready.
- Look for signs your baby is ready for solids. He will
 - Open his mouth for the spoon.
 - Sit with support.
 - Show good head and neck control.
 - Be interested in foods you eat.

Starting New Foods

- Introduce one new food at a time.
- Use foods with good sources of iron and zinc, such as
 - Iron- and zinc-fortified cereal
 - Pureed red meat, such as beef or lamb
- Introduce fruits and vegetables after your baby eats iron- and zinc-fortified cereal or pureed meat well.
- Offer solid food 2 to 3 times per day; let him decide how much to eat.
- Avoid raw honey or large chunks of food that could cause choking.
- Consider introducing all other foods, including eggs and peanut butter, because research shows they may actually prevent individual food allergies.
- To prevent choking, give your baby only very soft, small bites of finger foods.
- Wash fruits and vegetables before serving.
- Introduce your baby to a cup with water, breast milk, or formula.
- Avoid feeding your baby too much; follow baby's signs of fullness, such as
 - Leaning back
 - Turning away
- Don't force your baby to eat or finish foods.
 - It may take 10 to 15 times of offering your baby a type of food to try before he likes it.
