

1 MONTH VISIT—PARENT

SAFETY

- Use a rear-facing—only car safety seat in the back seat of all vehicles.
- Never put your baby in the front seat of a vehicle that has a passenger airbag.
- Make sure your baby always stays in her car safety seat during travel. If she becomes fussy or needs to feed, stop the vehicle and take her out of her seat.
- Your baby's safety depends on you. Always wear your lap and shoulder seat belt. Never drive after drinking alcohol or using drugs. Never text or use a cell phone while driving.
- Always put your baby to sleep on her back in her own crib, not in your bed.
 - Your baby should sleep in your room until she is at least 6 months old.
 - Make sure your baby's crib or sleep surface meets the most recent safety guidelines.
 - Don't put soft objects and loose bedding such as blankets, pillows, bumper pads, and toys in the crib.
- Swaddling should be used only with babies younger than 2 months.
- If you choose to use a mesh playpen, get one made after February 28, 2013.
- Keep hanging cords or strings away from your baby. Don't let your baby wear necklaces or bracelets.
- Always keep a hand on your baby when changing diapers or clothing on a changing table, couch, or bed.
- Learn infant CPR. Know emergency numbers. Prepare for disasters or other unexpected events by having an emergency plan.

WHAT TO EXPECT AT YOUR BABY'S 2 MONTH VISIT

We will talk about

- Taking care of your baby, your family, and yourself
- Getting back to work or school and finding child care
- Getting to know your baby
- Feeding your baby
- Keeping your baby safe at home and in the car
