

Hoodeyes – for the prevention of blindsidedness

A next generation Hoodie w/side views

Why would I should I could I Hoodeye?

- Because hoodie wearer's shouldn't have to swivel their head constantly to see danger approaching until its fatal.
- Because Hoodeyes protect one's privacy from facial recognition and the burgeoning surveillance state.
- Because alternate public privacy solutions are 10x more expensive from surveillance state
- Because its not how it looks from the outside, its how it looks from the inside
- Because Hoodeyes open new hoodie markets: new customers include privacy enthusiasts, political activists and would be activists of all ages, political perspectives and walks of life.
- Because Hoodeyes provide opportunity to association members stylishly displayed incorporated into the Hoodeye
- Because Hoodeyes provide a wearer's control over their public image data.
- Because a person shouldn't have to head for cover with vision obstructing head cover.
- Because hoodies are a 3000+ year old garment, it's past time to upgrade to hoodeyes

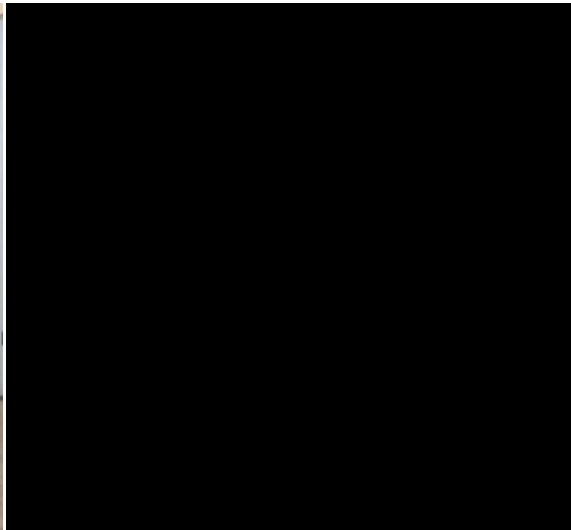

Sometimes it's not how it looks from the outside, its how it looks from inside
