Services

FIRE FIGHTING

- Every boat should ideally carry a minimum of one small fire extinguisher located at the exit to each cabin, in addition to a fire blanket if cooking facilities are provided.
- If the vessel has an enclosed engine space it is recommended that a fixed automatic fire extinguisher is also installed.
- We may arrange below mentioned periodic services according to Flag, Manufacturer, class societies with SOLAS requirements.
- Portable and Wheeled Extinguishers (CO₂, Powder, Foam, Water, Wet Chemical...).
- Fixed Fire Fighting System (CO₂, FM200, Foam, Powder, Water Mist)
- Fire Detection and Alarm System (Heat ,Flame, Smoke Detector)
- Fire Man Out Fit Compressed Air - Breathing Apparatus (CABA)
- Emergency Escape Breathing Device (EEBD)
- Fire Hoses and Nozzle
- Air Compressor - Air Quality Test
- Immersion Suit
- Heavy & Light Chemical Suit
- Medical Oxygen Cylinder

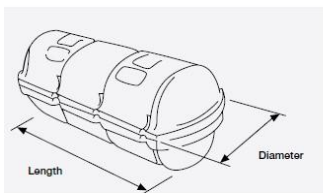

LIFERAFT SERVICE

- Inspection of inflatable liferafts can only be done by approved service stations at intervals not exceeding 12 months. According to SOLAS III/20.8.1.1. Call our department to arrange your yearly inspection.
- The initial cost of a liferaft can seem prohibitive to many occasional sailors. But given that most incidents occur well within view of the land, foregoing such a critical piece of equipment can be a very dangerous economy. Shipping a liferaft from one end of the country to the other is not only time consuming but will add considerable costs to your final service bill. We offer the best economic solution with service cost for valuable customers...

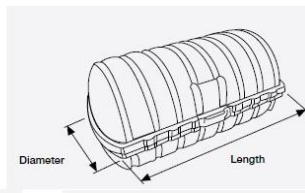

- Life rafts, Leisure and SOLAS approved spare parts with all necessary equipment's
- Life raft Accessories and Survival Equipment (Life raft Sen house Slip Hook, Life raft Deck Lashing.
- Strap with Sen house Slip Hook, Deck Mounting Cradle, Hammer Release Unit and more...)
