# Video Conferencing

## Customers Can Leverage System For Video Conference Services

### Built-in Meda Conference Services

Each VoxIP System has MCU capabilities to inititate and terminate video streams.

### Video Conferences For Multiple Endpoints

VoxIP customers can leverage SIP protocols to have various manufactures attend video conferences. You will be able to leverage hardware equipment to software desktop applications.

### VoxIP Certified Manufacturers

We have over 30 manufacturers products certified and tested to interopt with the VoxIP system. We test software updates and new hardware for our customers.
