

WRONG TO STRONG

JUVENILE PIPELINE

From Juvenile Facilities to
Adult Mentors – Building
Leaders, Not Inmates

WRONG
TO
STRONG

“Current Reality”

- Arizona transfers ~**25 juveniles** a year into adult prison.
- Most arrive with **no mentorship**, no guidance.
- They quickly get pulled deeper into gangs & violence.
- The system creates **liabilities**, not leaders.

**WRONG
TO
STRONG**

“70–80% of youth transferred to adult prison reoffend within 3 years.”

The Problem

What If We Intervene Before
Transfer?

- **Mentor juveniles** before they transfer to adult yards.
- Keep consistent support during the transition.
- Arrive in adult prison as leaders, not **liabilities**.
- Build a pipeline of **mentors inside the system**.

The Opportunity

"1 Juvenile mentored = 1 future
leader, not 1 future inmate."

Vision & Mission

◆ Our Vision

To **transform** the prison culture from the inside out — creating a **pipeline** of **leaders** instead of lifelong inmates.

◆ Our Mission

To **mentor** juveniles before transfer, guide them through **transition**, and develop them into mentors inside adult yards, breaking the cycle of gangs, violence, and **recidivism**.

“I don’t need to ask for credibility. I already have it in every lane — the system, the streets, and the culture.”

Proven. Respected. Already Inside.

20+ Years of Credibility
— From the Yard to National TV

How It Works: The Juvenile Pipeline

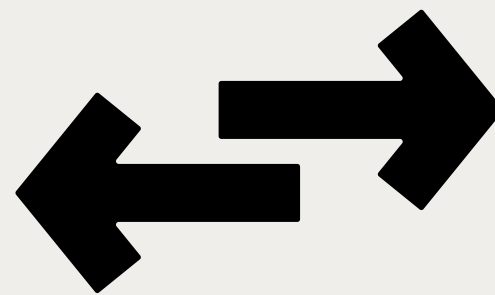

Step 1: Juvenile Mentorship

DISCIPLINE. MINDSET. PURPOSE.
BUILT INSIDE JUVENILE FACILITIES
BEFORE TRANSFER

Step 2: Transition Support

STAY CONNECTED DURING
TRANSFER.
MENTORSHIP FOLLOWS INTO
ADULT YARDS

Step 3: Adult Yard Leadership

ARRIVE AS LEADERS,
NOT LIABILITIES.
TURN INMATES INTO
MENTORS.

Step 4: Community Reentry
Return home with skills, identity, and purpose.

Reduced Recidivism

Reduced Recidivism

- 70–80% of youth currently reoffend within 3 years.
- With mentorship, that number can drop by 30–40%

Safer Yards

- Juveniles arrive with guidance instead of gang recruitment.
- Less violence = safer for staff, inmates, and facilities.

Stronger Communities

- Every juvenile who returns home with skills & purpose = less cost to taxpayers.
- A future leader in the community, not another statistic.

The Impact

Every reentry success saves the state \$30,000+ a year.

Who We Serve

- Primary Focus: Juveniles at Transfer Point
- The ones most likely to reoffend and get trapped in the system.
- Secondary Reach: Adult Prison Culture
- By creating peer mentors, the program stabilizes yards and influences culture from the inside.
- Juveniles (Level 4, high-risk, STG-affiliated) – ~25 transferred each year in AZ.
- Adult Yards (mentorship pipeline) – those same juveniles become peer mentors.
- Community & Families – every success lowers cost & risk for them.

“We know exactly who this program targets and why. We’re not just talking theory — these are the specific youth we’ll reach.”

Partner With Wrong to Strong

Together we can build a pipeline of leaders, not inmates.

Here's How You Can Help:

- **Open Doors: Partnerships with DOC & juvenile facilities.**
- **Fuel Growth: Financial support to fund curriculum, training, and mentorship staff.**
- **Join the Mission: Allies who believe in transforming inmates into leaders, not liabilities.**

We've proven the model. From DOC tablets in AZ & FL to programs in Perryville, Eagle Point, and ASU — we're already inside. Now it's time to scale. The Juvenile Pipeline can change prison culture in Arizona and set a national standard.

From the Yard to the Classroom. From Inmates to Leaders

Thank You. Let's Build This Together.
