

SUPER-FRAC II™ VALVE GREASE

FEATURES/BENEFITS

- **ENVIRONMENTALLY FRIENDLY**, Over-Based Calcium Sulfonate Complex Grease (Manufactured in Fort Worth, TX) is specifically formulated to better combat the harsh environment associated with today's frac jobs.
- **SUPER-FRAC™ VALVE GREASE HAS BEEN PROVEN TO OUTPERFORM ALL ALUMINUM COMPLEX GREASES** in water washout resistance, hydrocarbon resistance, pumpability, cavity fill/sand displacement, hard surface protection and sealing-and is competitively priced.
- Current customers report **25% to 50% REDUCED GREASE USAGE**, significant reduction in gate repair/replacement costs, reduced valve leakage and reduced or eliminated valve failures
