

**The Fastest Way to Pick Up Almost Any Liquid, and Help Leave a Non-Slip, Residue-Free Surface!**

## **For Foodservice, Grocery and Healthcare Industries.**

With its extraordinary absorption and holding power, PinkSorb™ Absorbent offers a new level of efficiency and cost-effectiveness for the quick pick-up of virtually any spill - foods, oils, detergents or waste products. PinkSorb cleans completely - leaving a non-slip, residue free surface, so as to minimize the risk of costly injuries due to slips and falls.

Compatible with virtually any oil or water-based substance, PinkSorb can absorb 12 times more and far outperforms conventional absorbents like clay or vermiculite, and other granular materials. PinkSorb is so super-absorbent that it dramatically suppresses odors and vapors. PinkSorb is made with FDA-recognized ingredients and is safe to use in healthcare and food processing environments.

**12x**  
More Absorbent than  
Conventional Absorbents!

**50%**  
Savings Compared  
to Clay

## Key Benefits

### **Super absorbency for the rapid and complete removal of spills**

In foodservice and hospitality, it's all about getting rid of spills quickly and completely. Whether a food, oil, detergent or waste product spill, PinkSorb works with astonishing speed and thoroughness.

### **Superior performance at an economical price**

PinkSorb can absorb 12 times more and far outperforms conventional absorbents like clay or vermiculite. With such compelling absorbing power, far less PinkSorb is needed to get the job done. That typically translates into 50% savings versus conventional absorbents.

### **Leaves a non-slip and residue-free surface for improved safety**

The cost of an absorbent is minimal compared to the costs associated with a poorly cleaned surface. Incomplete cleanups can result in slips and falls, which in turn lead to worker or customer injuries, workmens compensation claims, lawsuits and more which could have been prevented.

## Other Key Benefits

- ✓ Specially engineered for the foodservice and hospitality industries
- ✓ FDA-recognized ingredients
- ✓ Non-toxic
