

ANCHOR CHAIN CORROSION CONTROL

RECOMMENDED USES

- Commercial vessels
- Offshore oil & gas platforms
- Navigational buoys
- Mooring buoys
- Cruise ships
- Landing craft ramps

A LUBRICATING RUST INHIBITOR THAT REQUIRES NO SANDBLASTING

ADVANTAGES

- No sandblasting
- Can be applied to damp surfaces
- Polar bonds to all metals, even over existing rust and paint
- Stops rust on contact
- Creeps into pitting corrosion, cracks and crevices
- Excellent lubricant and anti-seize
- Prevents corrosion between links
- Dielectric properties; stops electrolysis
- Environmentally friendly
