

# HYDRAULIC & GEAR OILS

## HYDRAULIC OILS

- ◆ **TRIBO-CHEM™** provides a full line of multi-functional hydraulic fluids for a variety of industries and applications.
- ◆ With millions of hours of proven service in the field, **TRIBO-CHEM™** hydraulic oils are formulated to maximize oxidation stability in high-performance hydraulic systems. Fortified for significant protection against wear
- ◆ **TRIBO-CHEM™** hydraulic fluids can utilize either conventional, synthetic, or a mix of both synthetic and conventional base stocks. ISO viscosity grades available include but are not limited to the following:

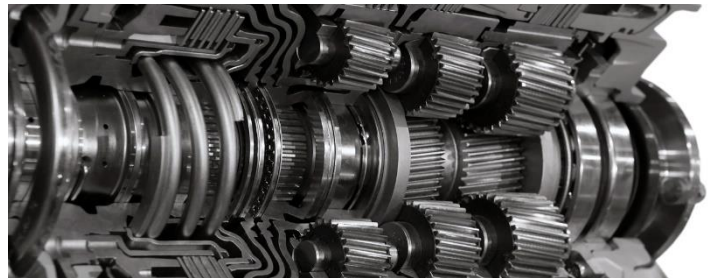

**ISO 10 AW ◆ ISO 22 AW ◆ ISO 32 AW ◆ ISO 46 AW  
ISO 68 AW ◆ ISO 100 AW ◆ ISO 150 AW ◆ ISO 220 AW**

## GEAR OILS

- ◆ Fortified with the latest sulphur/phosphorous based extreme pressure (EP) technology available, **TRIBO-CHEM™** Gear Oils are formulated for superior protection of gears in even the most adverse conditions
- ◆ Formulated to resist rust, oxidation, foaming, and varnish, **TRIBO-CHEM™** gear oils also exhibit excellent protection in hypoid gears in automotive axles under high-speed and/or low-speed, high-torque conditions.
- ◆ **TRIBO-CHEM™** Gear Oils are available in a multitude of base stock and additive formulations, many of which exceed the performance requirements of API GL-5 as well as several industrial and OEM specifications. ISO and SAE viscosities available include but are not limited to the following:

**ISO 100 EP ◆ ISO 150 EP ◆ ISO 220 EP ◆ ISO 320 EP ◆ ISO 460 EP  
75W-90 ◆ 80W-90 ◆ 80W-140 ◆ 85W-140 ◆ SAE 90 ◆ SAE 140**
