

## RECOMMENDED USES

- Piping and pipelines
- Fittings, flanges and valves
- Pilings and pier structures
- Splash zones
- Structural steel and support bases
- Repair patch wall corners and other problem areas
- Combat corrosion under insulation (CUI)

**EASY-TO-APPLY.  
NO PRIMER PASTE  
REQUIRED.**

## ADVANTAGES

- Outlasts the leading competitor in ASTM B117-18 Salt Spray Testing
- Simple one-step application process
- Non-hazardous, non-toxic and eco-friendly
- Can be applied to wet surfaces
- Wide range of operating temperatures
- Polar bonds to all dissimilar metals
- Dielectric strength, shuts down electrolysis
- Can be used to patch problem areas
- Available in custom colors and widths

After 1000 hrs of ASTM B117-18 Salt Spray Test
