- No hidden charges

Decisions are made every day that affect the viability and profitability of your business. Choosing the right facilities management company can directly impact your bottom line. Once you experience our premier project management and comprehensive service menu, you will have no reason to go anywhere else for your facilities management needs.

TRG Maintenance is the most reputable facilities management firm serving Ohio, Northern Kentucky, and Indiana. We are a Gold Star rated company in customer service with relationships with the Top Food Service Chains in America. Our service menu includes, but is not limited to, a full line of cooking equipment, walk-in cooler/freezer services, HVAC, electrical, plumbing, flooring, millwork, etc. with a results-driven ethic that is achieved only through years of experience and success. Our all-around service capabilities and 24/7/365 emergency response times have been refined and optimized to meet your expectations and needs so that you are satisfied every time!
