

D.KTOR

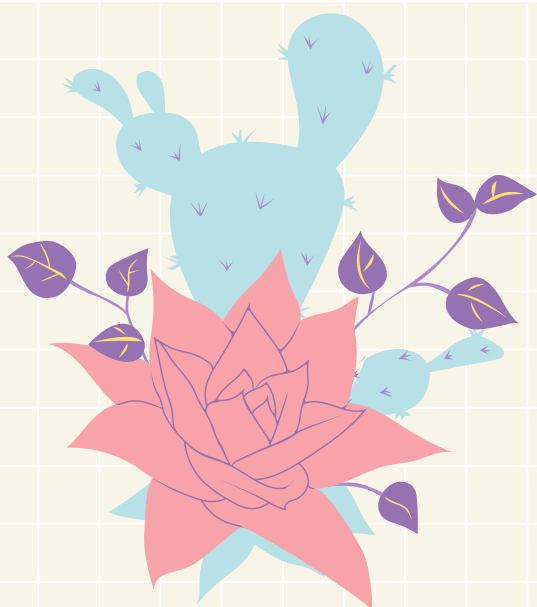

TAKE CARE OF

Your plants

Plant care should be easy when you know what to look for. We'll show you a few tips for maintaining a healthy garden.

①

Spray D.Ktor on leaves
every 2 weeks

②

Every plant
needs a few
hours of
sunlight

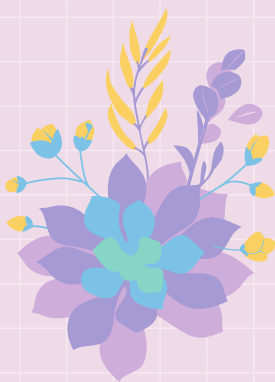

③

Only water
as often as
necessary

④

Replace
garden soil
when
necessary

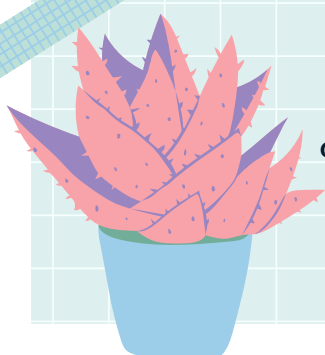

⑤

Staking your plants
reinforces the stems and
keeps them from bending

⑥

Use the right amount
of fertilizer and apply
appropriately
