

How to Volunteer and At What Cost to Travel?

Historic Cape Coast Slave Castle

The Mission will be jointly led by native Ghanaians who are US citizens and long-term Christian missionaries to Africa. Ghana is an English-speaking country. It is very well-known for its hospitality and politically stable democracy. It has a Christian population of nearly 70% and one of the safest and most popular tourism destinations in Africa.

- **Who and How Many Can Participate?** We need a minimum of five people to travel. Individuals, families, youth and adult groups, skilled health workers and unskilled persons are all welcome.
- **Travel Duration:** 16-18 days in mid-May to early-June every year. The travel team will have a say in exact travel dates.
- **How Will You Travel to Ghana?** There are multiple ways to travel to Ghana. There are 10-hour direct flights from New York JFK Airport (Delta Airlines) and Washington Dulles (United Airlines) to the Accra Kotoka International Airport. We can also fly to Accra using any of the major European airlines via major connecting destinations like Heathrow (London), Charles de Gaulle (Paris), Schiphol (Amsterdam), and Frankfurt (Germany).
- **What Will You Need to Travel?** You need a valid US passport and a visa for Ghana. You also need money, antimalaria prophylactics, and relevant vaccinations (yellow fever).
- **How Much Will it Cost?** It will cost about **\$3,950.00** to cover trip to Ghana, depending on factors such as flight fare, visa fees, domestic travel, hotel fees, food, and tickets to tourist attractions. Participants may need to keep extra money for gifts and basic personal needs.

Rural Ghana Missions - 2026 Community Health Screening and Gospel Campaign

Rural Ghana Missions

RGM - Who Are We?

- Rural Ghana Missions (RGM) is a Christ-centered outreach dedicated to proclaiming the gospel, restoring backsliders, and strengthening struggling congregations in underserved rural communities across Ghana, Africa.
- By combining evangelism with compassion-based community health screenings and giveaways, RGM opens doors for ministry and renewal.
- This holistic approach has led to powerful results—in our most recent mission, we screened 1200 people including 300 school kids, and baptized 41 souls in two weeks. Those communities saw a twofold increase in church attendance—signs of lives renewed, churches restored, and communities transformed by Christ's power. You may visit www.ruralghanamissions.org to learn more..

RGM Volunteers: Health Screening in Communities and School Giveaways

What Support Does RGM Need?

- First, RGM needs partners to pray for the success of our upcoming missions.
- Secondly, RGM needs financial and material support worth about \$20,000.00 annually to support the mission work. This include providing deworming medication and nutritional supplies for malnourished kids, schools supplies and educational resources, community health screening and medical supplies, community farming tools (tricycle, water-pumps), community clean water wells, women empowerment through start-up funds for petty trading and farming, individual vocational skill training, preacher support, church planting and church building support. For example, a donation of \$1000.00 or 40 donors giving a gift of \$25.00 per month can serve the health needs and provide school supplies for 40 kids every year. A donation of \$3000.00 or 10 donors giving a gift of \$25.00 per month can provide start-up funds to empower 10 women through petty trading and farming support each year.
- Finally, RGM needs volunteers to provide skilled and unskilled labor to help touch the lives of some rural communities in Ghana, and to minister the gospel of Christ to ailing souls, many of whom struggle with faith, superstition, and hopelessness. This is the main objective of our planned Annual May Mission

How Can You Participate?

There are multiple ways to participate in the next Rural Ghana Mission.

- You can travel with us to Ghana to provide skilled or unskilled labor in our health screening, gospel campaign and giveaways. We plan to visit rural communities in Northern Ghana, Central Region and Ashanti Region. We will spend a day in Kumasi, where Manhyia is home to the palaces and museums of the Ashanti King. Ashanti is one of the oldest empires in Africa and Kumasi is about 160 miles away from Accra, the capital of Ghana. In the Central Region, we will visit the historic Cape Coast Slave Castle and the Kakum National Park.
- You can also donate money, basic medical diagnostic equipment and materials, e.g., blood pressure, diabetes, and vital signs testing kits, medicines, and any relevant healthcare materials, school supplies, clothing and accessories.
