OWNER AGREEMENT

By signing below, applicant (owner) authorizes the Board of Directors, Architectural Control Committee (ACC) or its agent to enter upon and inspect the Lot and structure thereon, during regular business hours, for the purpose of ascertaining whether said Lot and structure thereon, are in compliance with the Restrictions, Minimum Construction Standards and the approved plans and specifications. Neither the Architectural Control Committee nor its agents shall be deemed to have committed a trespass by reason of such entry or inspection. If approved, approval denotes compliance with the Deed Restrictions and Minimum Construction Standards and carries no warranty regarding structural fitness, compliance to building codes, assurance against encroachment, etc. *Neither the Architectural Control Committee, Property Owners' Association (POA), Athena Management Services, nor any of their respective members, officers, directors, shareholders, employees, or agents shall be liable because of the approval or non-approval of any improvement.*

1. Owner hereby acknowledges receipt of Architectural Control Standards and hereby agrees to comply with all terms and conditions contained therein and obtain all applicable surveys and approved inspections as specified therein.
2. Owner agrees and understands, that the approval of plans and specifications, by the Architectural Control Committee, shall not be relied upon by any person or entity as to sufficiency, suitability, fitness, workmanship, or quality of the design and construction of the improvements.
3. Any change to the approved original design and original Home Improvement/Modification Architectural Control Application would require an additional review and approval by the ACC. This includes changes in Color, any design changes or location changes.
4. If construction of improvements or modifications are not completed within twelve (12) months after plans have been approved, an extension must be requested and approved by ACC. The following conditions apply:
 - (a) Provided no changes have been made to the original design and approval of an extension will be given.
 - (b) If changes have been made to the original design, then the Home Improvement/Modifications Architectural Control Application must be resubmitted for ACC approval.
 - (c) If construction of improvements or modifications or change(s) to the original approval are not completed (exterior) by the end of twelve (12) months and no extension request is submitted to ACC for approval, then Legal action will be taken at owners expense.
5. The Architectural Control Committee has 30-days from final submittal of plans and permits to approve the plans and authorize commencement of construction.
6. Neither the Architectural Control Committee, Property Owners' Association, Athena Management Services, nor any of their respective members, officers, directors, shareholders, employees, or agents shall be liable because of the approval or non-approval of any improvement.
7. All County building permits, and Green ACC Permit MUST be posted on the front of the lot from start of construction until the construction has been completed.
8. Error in location causing an encroachment will be the direct responsibility of the property owner. The builder/owner must assure the ACC that improvements are accurately located in accordance with the approved plans and that no encroachments will occur; without a specific variance having been requested and granted by the Architectural Control Committee. If encroachment occurs without a specific variance having been granted, owner and builder agree to remove those items upon ACC review and request.
9. Failure to comply with the ACC Application process, required compliance and inspections can result in legal action being brought to require compliance. You have the right to a hearing before the ACC. You have the right to a hearing before the ACC. You also have the right to appeal the ACC decision after the hearing, before the Board of Directors.

Basis of Approval and Inspection Process

Legal Action may be taken for non-compliance.

Basis of Approval

Approval of plans and specifications will be based, among other things, on adequacy of site dimensions, design of the structure, conformity and harmony with external design, relation of finished grades and elevations to neighboring sites and conformity to both the specific and general intent of the restrictions. All plans will be reviewed in a timely manner and a letter will be sent to the person’s name and address on the Application. Review the Covenants, Conditions and Restrictions and the Minimum Construction Standards for the property.

STARTING OR CONTINUED CONSTRUCTION BEFORE APPROVAL IS STRICKLY PROHIBITED AND SUBJECT TO LEGAL ACTION AT OWNERS EXPENSE

For Large Modification/Improvements (garage, barn, storage shed, room additions) it is mandatory to provide three surveys 1) Initial Survey of Lot 2) Slab “Form” Survey and 3) Final Survey. Builder could be asked for a copy of their Certificate of Liability Coverage.

Initial Survey of Lot is required for Large Modification/Improvements for ACC approval. Other permits or approvals may be required from the County or other Governmental entities. It is the responsibility of the owner to obtain **ALL** required approvals.

Form Survey - Once the **Initial Survey** is approved by the ACC, the builder must complete the slab “forms” and must obtain a “**Form Survey**” from a certified surveyor prior to the slab pour. When the “Form Survey” is completed, the builder will email the “Form Survey” to Athena Management Services at acc@athenamgmt.com for the required “Form Survey” approval and site inspection for encroachments **prior to continued construction.** “Form Survey” **MUST** be approved by the ACC **PRIOR** to pour; **NO EXCEPTIONS. If encroachments are evident or discrepancies, including eaves of the structure, you will be required to make the correction and it MUST be approved BEFORE any construction or slab pour is allowed.** Once the Form Survey has been approved by the ACC, construction can start.

Driveway Form and Rebar Inspection - Contact Brazoria County per your Brazoria County Residential Building permit for the required driveway form and rebar inspection prior to the driveway concrete pour.

Final Survey – When the Modification/Improvement construction is **completed**, but **prior to occupancy**, the builder must obtain a “**Final Survey**” from a certified surveyor and submit to Athena Management Services for the **Final Inspection**. ACC will approve or deny the Final Survey and Final Inspection. If ACC denies the final inspection, then ACC will notify owner of the denial and non-compliance identified during the final inspection. The owner will have ample time to correct the non-compliance issues. If the owner ignores the final inspection denial, owner will be notified that the POA may employ an attorney to enforce these requirements.

INSPECTIONS: ACC Members will perform inspections as needed. Failure to comply with inspections can result legal action being brought to require compliance. If any non-compliance issue exists, the Association may employ an attorney to enforce these requirements. You have the right to a hearing before the ACC. You also have the right to appeal the ACC decision after the hearing before the Board of Directors.
