

AdvanCare Training Program

Becoming A Certified Caregiver

At AdvanCare, we're raising the standard of home care through our Caregiver Excellence Program, a comprehensive training experience designed to equip future caregivers with the skills, confidence, and compassion needed to make a difference every day.

Our program blends interactive classroom learning with hands-on training in our fully equipped care lab, giving students the opportunity to practice real-life caregiving scenarios in a supportive environment.

- Assistance with daily living activities such as dressing, grooming, and meal preparation
- Safe transfer techniques and mobility support
- Personal care skills that promote comfort, dignity, and independence
- Effective communication and client engagement strategies
- Specialized Alzheimer's and dementia care training, helping caregivers understand and support clients with memory-related conditions

We also offer classes in Spanish

Becoming a certified caregiver today!
