

STRONGER THAN EVER, VIPER NATION BETTER TOGETHER!

“From the moment we joined, the welcoming atmosphere made us feel like part of a family. The growth in my daughter’s tumbling and stunting skills over the past eight months has been truly astonishing! I’m impressed with how well-run the gym is, with clear communication and expectations for both parents and athletes. My daughter is always excited to go to the gym, and we’re looking forward to watching her continue to grow as both an athlete and a person in the coming years!”

“This has been my daughter’s first year with the Vipers. I have truly seen her grow as an athlete during her time here. There are two things that stand out. The first is the level of precision that they put into their routines. The second is the level of commitment and support that the owners and coaches put into each and every team. I am happy that she landed here.”

“The amount of love and support the staff pour into this program is like no other. My daughter has found her passion and has thrived in this environment. Yes it’s fantastic that the Victory Vipers program is strong and place high in competitions, but over and above that, it’s a place where athletes can grow and feel supported at every age and every level.”

“Spending the last 8 years at Victory Vipers has been an incredible experience for my daughter. The staff are extremely knowledgeable in what it takes to be a successful, winning organization. More importantly, they don’t just teach athleticism at Victory Vipers—they instill values that go beyond the mat. They encourage their athletes to be humble winners and to always support their teammates, other teams in the gym, AND other organizations we may compete against. The training is top-notch, but what truly sets this gym apart is the positive, character-building environment. My daughter has gained not only skills and strength but also confidence, resilience, and lifelong friendships. If you’re looking for a gym that develops both great athletes and great people, this is the place to be!”

“We are in our second year at the gym, and my two daughters have both seen huge improvements in their skill. The coaching has been excellent and supportive, meeting my daughters where they are at, helping them be the best they can be. Victory Vipers is hands down the best all star cheer gym in the area.”

“When my kids walked through the gym doors they were just that- kids. Now they are elite athletes, teammates and have learned the true meaning of work ethic and friendship. I will forever be grateful for the coaches who have given my daughters so many gifts and taught them life lessons. They can take what they have learned and achieved at the gym into the world and they are better people for it. Sure they have won rings and jackets, but the real trophy is what they have gained mentally and in their hearts. Knowing what kind of leader they want to be, because they were inspired by older athletes who lead by example. Knowing they can do hard things and overcome because they did it in practice and learned a new skill at a moments notice because their team needed them. Those are the real wins. That’s what you will find at VV, not just a team but a family.”

“We are in our second year at the gym, and my two daughters have both seen huge improvements in their skill. The coaching has been excellent and supportive, meeting my daughters where they are at, helping them be the best they can be. Victory Vipers is hands down the best all star cheer gym in the area.”

“Cole is starting his 4th year at Victory Vipers. His confidence, self worth, and happiness is through the roof. The coaches and owners place athletes on levels where they can be successful and grow in stunting, tumbling, and dance. Encouragement, positive feedback, and tough love turns individual athletes into a team that wins.

The relationships that Cole has developed will last a lifetime. The Zimmerman family is proud to wear orange and blue in support of this amazing organization that means so much to him!”

“Our daughter has been with Victory Vipers since she was 4. She started on Baby A’s, moved to Slither, and has been on H1ss for the last two seasons. Each year, we are amazed at her progress. She has grown in skill, resilience, and confidence. The Coaches see her potential and give her opportunities to work toward that potential. They push her in all the right ways to learn and perfect new techniques. When we see her overcome challenges or nerves before a performance, we know she is gaining valuable life lessons.
