To Whom It May Concern:

We appreciate your time and interest in our project. The 2019-2020 CJ Harris PTA is hard at work, for our third year in a row, trying to raise enough funds to build a new special needs playground. Roughly 10% of our students have some type of disability and are considered special needs. Currently, these students are not able to access and play on our larger playground that we have.

Why do we need a new playground?

- ❖ We need a safe space for our pre-k, kinder, and special needs children to play
- ❖ The current structure and pebble rock foundation is no longer in code
- ❖ The current structure is rusted and broken in multiple areas
- ❖ The pebble rock foundation does not allow for special needs children to safely access

How will your contribution benefit CJ Harris Elementary?

- ❖ This playground will provide a safe space for not only the special needs children, but also roughly 30 Pre-K kids and 150 kindergarten kids
- ❖ The PTA currently only has enough money to rebuild the foundation of the playground site, so the children will not have a playground for at least another year until we are able to raise the funds for the minimal structure requirement
- ❖ With your help, we will be able to provide a special needs playground and have the ability to use any future earnings towards improving and expanding the structure or redirecting our funds elsewhere where needed within the school

The special needs playground will have a wheel chair accessible fort, a gently inclined rock wall, a swing-set with tall backs, low access game boards, and a sun shade to protect the kid's from getting burned on hot equipment. We also have the ability to add on additional pieces, like more swings or a merry-go-round, at a later time, should we acquire additional funds. Thank you so much for your time and considering us for sponsorship.

Sincerely,

CJ Harris PTA
