

SANDY ECO EXPO 2026

The Sandy Eco Expo is more than an event — it's a catalyst for community-led environmental action. By empowering young leaders and connecting people, ideas, and opportunities, it helps the region move from awareness to meaningful change.

Environmental Impact

- Promotes waste avoidance, repair, and reuse.
- Showcases local sustainability programs and green innovation.
- Encourages behaviour change that reduces waste and emissions.

Community Impact

- Free, inclusive, family-friendly event that connects people and ideas.
- Empowers young people through student-led initiatives.
- Strengthens collaboration between community, council, and business.

Economic & Social Impact

- Supports local green enterprises and circular economy growth.
- Drives visitation and local spending.
- Builds social capital and long-term cost savings through sustainable living.

Mission

The Sandy Eco Expo empowers our community to live more sustainably by inspiring action through collaboration with businesses, schools and community groups to reduce waste, repair, reuse and recycle.

Our Audience

- Parents and families who are active in local community life
- Primary school students across south east Melbourne
- Teachers, principals, sustainability leaders
- Local government, community groups and volunteers
- Businesses committed to reducing their footprint

Our **Vision** is to inspire a new generation of environmentally aware young people by giving them hands-on experience, real world learning opportunities and a platform to share their ideas. The expo is designed to be engaging, educational and deeply connected to the values of our community.

- Over 600 visitors
- 40 businesses and community groups represented
- 3 local schools involved
- Growing every year

Student Eco Explorers' Program

Today's students will inherit our environmental decisions yet have little voice in determining social and ecological action pathways. The Student Eco Explorers Program allows students to shape community learning, building on the success of previous expos.

- Showcases schools as community leaders
- Builds community connections
- Provides hands-on real world learning
- Encourages family engagement
- Inspires pride and recognition
- Supports life long learning
- Students teaching adults

Why Partner With Us

- Alignment with sustainability, education, and community values
- Opportunity to support youth leadership and environmental literacy
- Contribution to a high-impact, local initiative
- Long-term visibility (not just a one-day event)

In the words of Hiva Tuki Grube
(aged 14) 'Future Council'
"It takes one person who cares about
nature... who can make another person
care and another. And before you know
it you have a whole flock of caring
humans who are changing businesses
and creating a better world for all
species on this beautiful earth".
