I am excited to financially contribute to the film project titled Love at the Christmas Fest produced by Generation Courage. I understand that the packages from $50-500 are non-refundable. Packages of $750 and above include all lower-tier benefits plus services delivered only if the budget is met and the film goes into production. Funds from packages above $500 will be held in escrow. In the unlikely event production does not proceed within 5 years of the date of contribution, contributions will be refunded (less $500 and electronic fees). Electronic fees are applied to any funds collected through electronic/credit payments and will be charged 5% of the total contribution before refunds are issued.
