

CERAMIC BAND HEATER

FEATURES

- Thermal insulation.
- Conserves energy.
- Minimum heat loss.
- Easy installation & removal.
- Uniform temperature.
- Better Heater life.
- Can be manufactured to your specification.
- Available in various type of construction & terminations.
- Saving in energy up to 30%.
- Reduced wattage of heater.
- More uniform heating.
- Less downtime increases productivity.
- Reduced preheating time of machine.

STANDARD CONSTRUCTION

Specifications:

- Insulation Material: Mica
- Power: 300W-1000W
- Voltage: 240V
