Page 2

Temporarily secure the 5 corners of the net to the frame.

Make sure the 2 center thick ropes that go from the top 2 corners of the goal to the back bottom are on the on the inside of the goal net before lacing. Securely tie off the rope to the front top hole of the folding section and lace up.

NOTE: Lace every 3rd net box on the straight sections

Lace every other box on the corners
When lacing is complete, tie off with good knots.
See pictures below and box cover

### 7. Bottom Goal Net Lacing.

Note: Lace every 3rd box on the straight sections.

Lace every other box on the corners

Leave about 8" of rope on both sides. These will be used to tie off the pull pins. Lace the rope around the tube and make a secure knot away from the folding section so you do not cut the rope when folding the goal.

When lacing is complete, tie off with good knots. See pictures and box cover Note: Put a little Super Glue on all knots if possible, to keep them from coming untied.

#### 8. Installation of Throwback Black Net

Note: The tilting side bars and bottom front throwback tube needs to be on before installing the throwback net.

Note: Safety glasses should be used while securing or removing throwback net from frame.

Evenly connect the bungees to the net before putting it on the frame.

There should be **9** bungees on each side of the net. Connect all bungees, then secure them to the goal. Replacement bungees can be ordered online at **ezgoal.net** 

Hook bottom throwback tube to folding section.

### 9. Adjusting the Angle of the Throwback Frame

The throwback side bars have a **special patent pending** feature that enables you to adjust the throwback without going from hole to hole.

**Note:** Pull out both bottom folding section pull pins before adjusting the tilting throwback. Store pins in the extra front holes on the folding section.

- 1 Push the silver middle button in, twist to the right.
- 2 Do the same with the other side bar.
- 3 Adjust the tilting angle.
- 4 Twist both bars back to the left and locate holes.

Note: Do not use the bottom 2 Safety slots on the side bars.

# Backstop Rebounder Kit (Fits all goals)

Make a good player better one!

## To Order the Backstop Rebounder Kit Visit ezgoal.net **CUSTOMER ASSISTANCE**

For help, replacement parts, questions or concerns about your EZ Goal Products EMAIL or Call

**EZGoal Sports Customer Service:** West Haven, CT 06516 Service@Ezgoal.net or 203.933.4442

## **SAFETY PRECAUTIONS**

### **WARNING**

- Manufacturer suggests wearing safety goggles for net assembly, to protect against bungee cords hitting eye.
- As with any play equipment, children MUST be supervised
- Use product on a level surface.
- Never use near steps or stairs.
- For outdoor use only.
- Allow 8 feet from structures such as a fence, garage, house, overhanging branches, laundry lines, or electrical
- Use common sense, and all the same precautions as you would when playing sports.

  • Secure unit, so high winds do not blow it over.

## **WARNING**

- · Never allow anyone (people or pets) to stand behind the Net or in any possible path of a ball or puck should you miss the net or should the ball or puck go through the net.
- · Inspect unit before and during each use. Replace any warn or damaged parts.
- · Never allow children to stand on unit. This could cause damage to unit and result in an injury.
- Do not use bungees for any other purposes other than to apply net.
- · As with any sporting activity, always wear the recommended safety equipment.
- Never leave children unattended.
- · Use protective eyewear when securing bungees.
