Putterham Grille is currently following the strongest protocols in the industry to serve you during this time of need we know that some of you are not able to make it to our restaurant here in Brookline/Chestnut Hill so we have designated ourselves to coming to you.

Our Home Meals program will concentrate on a list of single/double and family size meals including all our famous soups & salads.

---

**Step 1: Vendors and suppliers are limited and are not having access to our building a sign-in log and a checking of their company's log is being asked for before we accept orders (produce/provisions & paper/packaging supplies)**

**Step 2: All food items are being placed in our storage/coolers & freezers in which again only 1 assigned person who has been cleared will be the one to handle the product**

**Step 3: Responsibilities of the handler will include 2x daily sanitation of the rooms that he/she is accessing and more than 2x sanitation depending on the frequency of access to the room or if more than 1 handler has been in these contained storage rooms.**

**Step 4: We have preparation areas that in the past were used only for severe allergies (such as nut allergies) now these rooms which are wall to wall stainless and stainless work tables/glass cutting boards are only being used for the preparation of these meals that are being prepared for home delivery**

**Step 5: All meals will be labeled and safety wrapped in this preparation room before being packaged and assigned for you, in order to do this and stay on top of demand MOST of these orders will be finished cooled, packaged and will require re-heat once delivered, however this is best because now you can assure freshness for 4-7 days in your home refrigeration.**
