Before your face scan, please follow these guidelines to ensure the best results

1. Ensure you are in a well-lit environment with minimal shadows on your face.
2. Clean your device's front camera lens to avoid blurry or distorted images.
3. Hold your device at eye level and keep your face centered within the frame.
4. Stay steady and avoid sudden movements during the scan.

Step 14: Please read the instructions carefully before face capturing.

AADHAAR

Face Authentication Advisories

1. Ensure your face remains within the boundaries of the circle, maintaining alignment. Stay still while the app detects and captures your face.
2. Make sure your face is well-lit, avoiding any backlighting.
3. Please remove tinted sunglasses and don't cover your face during the capture.
4. Once the prompt appears on the screen, blink your eyes. You may need to blink multiple times until the image is captured.

☒ I am aware of these advisories and need not be shown again.
