OUR PROGRAMS & THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

In 2015, all Member States of the UN adopted the 2003 Agenda for Sustainable Development. This lays out 17 Goals that contribute towards a better future for everyone on the planet with a view to promoting peace, prosperity and combating climate change.

Using these goals as guidance as to how we do business, we have an opportunity to engage with our people and approach Corporate Volunteering and Corporate Social Responsibility with these in mind, contributing to global change.

Each of our Charity Partner Programs contributes to one or more of these goals, something of which we and our Partners are incredibly proud.

Please get in touch if you'd like to know more.
