

Spring Event 2026

Libby Goff Memorial

We honor a remarkable woman whose love of nature, our parks, and preserves was matched by her passionate efforts to protect the fragile desert ecosystems and the creatures that depend on them.

Libby was a kind, gentle person, and a force behind issues and causes that define our shared responsibility of stewardship to our desert mountains preserve.

To know Libby was to feel welcomed, inspired, and valued. Whether volunteering, advocating, or lending her voice to worthy causes, she brought people together, compelling us to care for the land and each other, and to take action and make a difference.

Her footsteps may no longer echo on the trails she loved, but her spirit lives on in every protected landscape, every act of kindness inspired by her example, and in the many hearts she touched.

Libby is deeply missed and forever remembered.
