

To whom it may concern,

Today I am emailing you in support of the Healthcare Workers, Nurses, Doctors, First Responders, Firefighters, Police Officers, and other State employees.

When the virus was declared a pandemic in the beginning of 2020, these people were classified as essential employees and went to work every day with uncertainty of what the outcome or dangers could be. They risked the unknown to keep the hospitals open, keep the streets safe, treat patients, fill prescriptions, extinguish house fires, working in the confined spaces of jails, and so much more. With the unknown virus looming they did this by choice.

Just as all these people went to work by choice for the past 18 months, it should be their choice now. We respectfully demand NO VACCINE MANDATES. Mandating a medical decision, against their will, for the people who have tirelessly sacrificed, is unjust, unfair, and no way to reward their dedication and courage through these turbulent times.

Let the Governor know it is unacceptable to mandate a vaccine.

Stand with us and "Say NO" to the Mandatory COVID 19 vaccine.
