Environment and beauty, innovation and heritage, sustainability and state-of-the-art: achieving the fusion of such diverse factors in a design project is not easy, but it can be done. Research and passion are fundamental for transforming an industrial product into a low environmental impact project.

Écologie et beauté, innovation et héritage, développement durable et avant-garde : fusionner des aspects aussi différents dans la finalisation d'un projet de design n'est pas facile, mais c'est possible. La recherche et la passion sont essentielles pour transformer un produit industriel en un projet à faible impact environnemental.

Umweltschutz und Ästhetik, Innovation und Erbe, Nachhaltigkeit und Avantgarde: solch unterschiedliche Aspekte bei der Ausarbeitung eines Designprojekts zu vereinen, ist nicht einfach, aber es ist durchaus möglich. Forschung und Leidenschaft sind zwei wesentliche Pfeiler, um ein industrielles Produkt in ein Projekt mit geringer Umweltbelastung zu verwandeln.

Ecología y belleza, innovación y legado histórico, sostenibilidad y vanguardia: reunir aspectos tan diferentes en el desarrollo de un proyecto de diseño no es fácil, pero es posible. La investigación y la pasión son fundamentales para transformar un producto industrial en un proyecto de bajo impacto ambiental.

Massima resa energetica e minimo impatto ambientale. Dal reperimento delle materie prime alla qualità degli spazi di lavoro, fino agli imballaggi utilizzati: tutti gli scarti, cotti e crudi, vengono recuperati così come l'acqua che viene riutilizzata al 100%. Massima attenzione anche alla politica energetica: il recupero del calore contenuto nei fumi di cottura permette di ridurre l'uso del gas naturale necessario per il processo produttivo.

Maximum energy yield and minimum environmental impact. All aspects of production are designed to guarantee optimal energy use with minimum environmental impact, from sourcing the raw materials to the quality of the work spaces, through to the packaging used, and all the manufacturing waste (fired and unfired) is salvaged, including water, which is entirely reused. We also focus considerable attention on our energy policy, reusing the heat contained in the firing fumes in order to reduce the amount of natural gas required for production.

Rendement énergétique maximum et impact minimum sur l'environnement. De l'approvisionnement en matières premières à la qualité des espaces de travail, en passant par les emballages utilisés : tous les déchets, qu'ils soient cuits ou crus, sont valorisés, tout comme l'eau, qui est réutilisée à 100 %. Une attention extrême est également portée à la politique énergétique : la récupération de la chaleur contenue dans les fumées de cuisson permet de réduire l'utilisation du gaz naturel nécessaire au processus de production.

Maximale Energieeffizienz und minimale Umweltbelastung. Von der Beschaffung der Rohstoffe, über die Qualität der Arbeitsbereiche, bis zu den verwendeten Verpackungen: alle Abfälle, ob gebrannt oder roh, werden so zurückgewonnen, wie auch das Wasser, das zu 100% wieder verwendet wird. Höchste Aufmerksamkeit gilt auch der Energiepolitik: die Rückgewinnung der Wärme, die in dem beim Brennen entstehenden Rauch enthalten ist, ermöglicht die Verringerung der Verwendung von Naturgas, das für den Produktionsprozess erforderlich ist.

Desde la obtención de las materias primas hasta la calidad de los espacios de trabajo y los embalajes utilizados: todos los residuos, cocidos y crudos, son recuperados, como así también el agua, que es reutilizada al 100 %. 60x120 . 24"x48" shine rett.

* Il decoro è stato realizzato con oro rosa pertanto il fondo può essere posato solo a parete.
Il decoro non è resistente all'usura da sfregamento sia in fase di posa che post posa.
Per la pulizia quotidiana si consiglia di utilizzare un panno umido impregnato di acqua o prodotti neutri.

* The accent features rose gold, which means the background tiles can only be used on walls.
The accent has low rub resistance both during and after laying.
For everyday cleaning, we recommend you use a damp cloth soaked in water or neutral cleaning products.
