

AELIAN

BIOTECHNOLOGY

Aelian Biotechnology GmbH is an Austrian start-up company that has been established in February 2018. It combines CRISPR screening with single-cell sequencing, leveraging two transformative technologies to enable genetic screening for complex phenotypes. The team is young and dynamic and looking to apply rigorous science with the goal of having a translational impact.

At Aelian, we are looking for one **Technical Assistants (m/f)** with experience in:

- **Growing human induced pluripotent stem cells and/ or primary human T cells**
- Culturing, Freezing and Thawing of murine and human cells
- Molecular Biology, particularly PCR, Gibson Assembly and Cloning
- Next Generation Sequencing (PCR, Library Preparation)
- Genome Engineering using CRISPR/Cas9 technology

Good knowledge on MS Word and Excel is a prerequisite for your daily work. As Aelian Biotechnology operates in an international environment, good English skills are required.

To be formally eligible, you should have completed a Höhere Technische Lehranstalt (HTL) or a Bachelor's Degree. We are looking for a team player that is driven and enjoys cracking tough nuts.

The minimal monthly salary according to the collective bargaining agreement amounts to 1.800 EUR, but a higher salary is possible depending on the experience and fit of the candidate.

If you would like to be part of a young and exciting company, please send your application to Dr. Tilmann Buerckstuemmer (office@aelianbio.com) no later than February 28, 2019.
