

# WHAT

Border Security is a primary responsibility of every government in every country across the globe.

Security measures include individual inspections at Air Ports and Land Ports. These are legal points of entry into a country. When a person

or group of people decide to enter a country in a place other than a designated port, it is an

**ILLEGAL ENTRY.**

There are many techniques to deter and stop illegal entry, however, most are only partially effective. A wall however, does not discriminate, it simply stops

**ILLEGAL ENTRY.**

**So we shall build a wall.**

# WHERE

The problem has existed between San Deigo CA and Brownsville TX for some 30 years. Not a new situation, but one that certainly has become a burden on the US tax payer.

Each Border Patrol Sector has been tasked with enforcing US Law along specific enforcement zones.

**These zones are where we will raise the wall.**

# WHEN

Beginning this year, 2018, we will begin a campaign of fund raising.

For many years now, the members of Congress have shown their hand, and border security is not a priority for them.

Following successful fund raising, we will begin to solicit grant applications for companies and individuals that can provide materials

and labor to construct the wall.

The estimated cost is between 18 and 25 Billion Dollars, however this year Congress only provided less than 2 Billion for the project.

**Support this effort today, and let's fund the wall.**

# HOW

Clearly this is a huge undertaking! Project management of this effort will be a unique combination of Border Patrol, local construction companies, and the Border Wall Foundation.

Border Patrol has vast experience in constructing border barriers and fences. They already have contacts in the areas where a wall is needed. Border Wall Foundation will become the financial broker between the planning element within the Border Patrol, and the construction companies that will perform the work.

Border Wall Foundation will make direct payments to cover the costs of construction and provide quality assurance oversight to make certain payments are only made for border wall activity.

## *We the People*

of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

To support our goal of having a secure border, please visit our website at
