

## **Snow Removal Tender and Contract**

Please provide your quotation for snow removal services for the properties noted in "Schedule A", based on the following specifications:

**Quotes to be provided by 12:00pm on Wednesday, October 2nd, 2024 to:**

Katie Ekroth (hereinafter called the Manager)  
2020 Management  
#215, 8520 Manning Ave  
Fort McMurray, Alberta T9H 5G2  
Phone: 780-714-0812

Or by Email: [dispatch@2020management.ca](mailto:dispatch@2020management.ca)

The Corporation reserves the right to accept their choice of tender, not necessarily the lowest bid.

Payment for the contracted services will be made as follows: 5 payments to be paid monthly beginning with the 15<sup>th</sup> of the first month following service.

The Snow Removal Provider, hereinafter called the contractor, is to provide all equipment and supplies necessary to complete the following contract services, hereinafter called the work, for the period November 1<sup>st</sup>, 2024, to March 31, 2025.

### **Expectations & Frequency**

1. Sidewalks and entrances to be inspected daily to ensure they are safe.
2. Sidewalks, right up to doorways (including side/exit doors) to be cleared within 12hrs of snowfall accumulating 1" or more.
3. Parking lots and roadways to be cleared within 24hrs of snowfall accumulating 2" or more.
4. Fire hydrants, emergency entrances, and postal mailbox locations to be clear always. There may be additional of the above noted fixtures on site, over and above what is outlined on the map provided.
5. Parkade ramps must be clear always. Heated (sloped) portion of parkade ramps are to be monitored at every visit and cleared in the event of heating system failure or as needed. Areas with ground level parkade overhead doors require area around door cleared to ensure proper function of overhead door.

6. Garbage enclosures and areas in front of enclosure must be clear always.
7. Bus routes where applicable to be deemed priority for clearing (see Schedule A and Property maps)
8. Roads inspected every 24hrs and sanded as required, except during extreme conditions in which this will increase to every 12hrs.
9. Hauling when designated stockpiles are full (as per schedule A). Snow shall be hauled to city snow dumpsite. Designated stockpiles are not to impede safe view of exits, or encroach on roadways/access points etc. Stockpile must be hauled prior to becoming a safety hazard, and maximum heights are at the manager's discretion.
10. Sanding & De-Icing to be completed as required to prevent slip and fall incidents (products used to be pet friendly).
11. Submission of routine inspection reports through form provided by 20|20 Management
12. Exit doors that do not discharge to a standard walkway should have a 15' radius cleared around the door for safe exit.

## **Spring Clean up**

1. Clean up and remove all debris, including road gravel from **walkways, roadways & parking lots (including individual stalls)** that accumulated over the winter.  
**This must be completed By May 1, 2025**
2. Any sand boxes delivered shall be picked up by May 1<sup>st</sup>, 2025, to ensure grass underneath does not die.

Work may be required outside of the contract dates for the removal of snow, depending on weather. Please provide your hourly or daily charge for work required outside of contract dates.

## **Contractor Responsibility**

Contractor shall furnish qualified supervision to oversee all operations and coordination with sub-contractors.

Contractor shall furnish all equipment necessary to perform the work in accordance with these specifications. Contractor undertakes and ensures that all employees will abide by the codes and safety standard requirements of Occupational Health and Safety and those of any other government agency which may apply to this contract. Contractor warrants that all equipment will be of such type as to cause no hazard or danger reasonably foreseeable.

All materials used by the contractor shall either conform to these work specifications or shall otherwise receive approval for any change from the Manager.

Contractor shall be responsible for the repairs of any property damage caused by his employees and or his operations.

Contractor shall repair any grass damaged as a result of piling snow outside of designated areas.

The Manager will be inspecting all work at regular intervals.

Contractor shall provide proof of comprehensive general liability insurance in an amount not less than \$2,000,000.00 per occurrence. Contractor to provide evidence of Workers Compensation coverage being in good standing.

Contractor to notify the Manager in writing of any items that need attention that are not included in these specifications. The contractor is to provide the price and/or hourly rate to be charged for such extras.

Employees of the contractor are always to be properly attired while on site.

The contractor is to provide a simple checklist report of his activities to the address of the manager on site each week, indicating what work has been done and identifying any problems.

Any unapproved deviations from specifications will be done solely at the cost of the contractor.

If a sub-contractor is to be used by the contractor, the sub-contracting firm must be named, and details provided prior to the commencement of any work.

The corporation reserves the right to cancel this contract on 30 days notice if expectations are not being met.

Signed on this day \_\_\_\_ of \_\_\_\_\_, 2024 (signed by the Contractor and Corporation)
