Getting to the "Southwest T-Hangars" at Chicago Executive Airport (Palwaukee)

Mostly: Get to the McDonalds on the corner of Milwaukee and Willow/Palatine Road… (the first 3 steps)

1) From the Expressway, exit Willow Rd, West
2) Stay in the middle two lanes to go straight through 1st light
3) Exit Willow Rd on right for '**Milwaukee Ave'** ramp.
    a. Exit ramp is 2 lanes. Stay in RIGHT Lane to go straight (left lane is left turn only ☹)
    b. This will lead you onto "Old Palatine Rd", where the **McDonald's** is.
4) Continue west on this frontage road ("Old Palatine") past **McDonalds.**
5) Drive past the first entrance on your right which is a small viewing area with bleachers.
6) Turn into the 2nd entrance, which is a small, unmarked driveway by the 'Stop sign ahead' sign and a 30' red/white tower. The fence blocking access to the hangars will say "Gate A 23". You will need to enter the gate-code to enter the area.
    a. If you got to the stop sign just **past** the parking lot you have gone too far ☹. Turn left at Wolf, then another left to go back on Palatine Rd *east*, exit at Milwaukee, and try again!

Henry Cell: 847/682-4550

Gate code is _ _ _ _,

Be Careful: you are now competing with planes on an active taxiway!
Do NOT go any farther than the row of buildings!

When leaving, just pull your car up to within a foot of the gate (yes, that close) and it will open automatically.

From the Expressway:
1) Exit Willow Rd, West
2) Stay in middle 2 lanes, then
3) Exit ramp for Milwaukee Avenue.
4) Be in RIGHT Lane to go straight through the intersection

From Milw Avenue
4) Go West on 'Old Palatine Rd' at the McDonalds (a small 'frontage rd')
6) Turn into the 2nd small parking lot.
