

August 2023

Vibin' Skin Spa

OILY SKIN. DRY SKIN. DULL SKIN. CLOGGED SKIN.

Would you describe your skin in any of these ways? These are common concerns and yet deciding what to do about them can often seem so overwhelming.

While I have always had appropriate products to address a wide variety of skin needs and wants, I am so excited to add a piece of technology to my facial services!

Facial scrubbers aren't uncommon - you can buy them pretty much anywhere - BUT many of the scrubbers you can use at home rely on physical vibrations rather than vibrations from ultrasonic sound waves, which is less damaging to the skin. Ultrasonic exfoliation loosens the "gunk" in your skin (which we all have simply by being exposed to the environment) which not only allows me to perform more efficient and less painful extractions but also prepares your skin to more easily shed dead skin cells for a more radiant appearance.

Experience it yourself for FREE with any facial service booked in August!

*Due to the ultrasonic waves, this equipment cannot be used on anyone with a pacemaker, cancer, epilepsy, or pregnancy. Don't worry - you'll still get an amazing experience!

Don't forget - Classic and Hybrid Lash Extensions are only \$80 during August!

Routine facials done by a professional have immense benefits - both for mental health and skin health. Long-lasting results require quality home routines as well. I'm so excited to announce that Vibin' Skin Spa will have home-care products available for purchase within the next week or so. A service is not required to purchase but I am adding a booking option to come in and discuss products and home routines for those that are interested. Make sure you're following Vibin' on social media for updates and product information (or ask when you're in next)!

As always, I appreciate all of you more than you know!

XO, Sara
