AnimoGovernmentConsultingInc

We provide services that go beyond immediate challenges, focusing on creating long-term value for our clients. Our team has extensive experience in NIST Cybersecurity Framework (CSF), FedRAMP, NIST SP 800-122 (Safeguarding PII), Data Classification and Destruction, and Legacy Media Digitization.

Who We Are

Animo Government Consulting: Where Experience Meets Innovation

Founded in 2020 by US Air Force veteran Sagar Moktan (Active TS/SCI Clearance; ex-Amazon), Animo Government Consulting is a Northern Virginia-based team of seasoned IT and Management professionals. We specialize in cybersecurity management and compliance, with 10 years of experience within the federal government and in the GovCon industry.

Our commitment to NIST compliance is built-in, not an add-on. This means your agency receives NIST-compliant performance data and services as standard, ensuring the highest level of security at no additional cost.

Animo is dedicated to continuing our service to the government. We combine proven expertise with a commitment to innovation and security to deliver tailored cybersecurity solutions for your agency's unique needs.

Our Past Experience

Cyber Consulting Firm | 2019–2023

- Prepared four IT systems for FedRAMP authorization.
- Managed cyber security assessments, authorizations, and monitoring activities, working directly with relevant stakeholders to categorize, select, implement, assess, authorize, and monitor systems for Cloud Service Providers (CSPs), Fortune 500 clients, and Federal Agencies.

Network Solutions Provider | 2023

- FedRAMP and NIST 800-53.
- Developed and executed strategies for closing cybersecurity management compliance gaps and partner in the analysis of regulatory and compliance initiatives.

FAANG Company | 2021–2023

- Program management for the General & Administrative(G&A) Technology, Inclusive Experiences, and Technology (IXT) team.
- Managed the operations and initiatives of a significant workforce, comprising 3,000 associates and contractors.
