About Black Realities

The purpose of Black Realities is to support Black artists who are creating experiences in virtual reality, augmented reality, games, apps, 3D animation, and other emerging creative technologies for storytelling, entertainment, problem solving, and community engagement purposes.

Our grant winners have created transformative, cutting edge, and award-winning projects that have resulted in new pathways for artistic exploration and audience engagement.

\$10,000

THANK YOU
FOR YOUR
INTEREST

We are currently upgrading our online platform to improve the grant process.

During this time, our monthly grant program is on a **temporary** hiatus. We expect to resume our grant program in the Fall of 2022.

Please enter your email address below to remain informed.
