#2 BASIC SPECIALTY TEST FOR FHA/VA LOANS: Bacteria: Total coliform, E. Coli (there should be no coliform bacteria in the sample, known to cause illness). Mineral Chemistry: Iron (brown stains, bitter taste), Lead (a toxic metal from plumbing components), PH (acid/basic determination), Turbidity (presence of particles/measure of cloudiness), Nitrate as Nitrogen (indicator of biological waste), Nitrite as Nitrogen (indicator of waste), Total Nitrate/Nitrite Nitrogen (total nitrate and total nitrite). Total for this test varies \$295-\$495 depending on location & if you have a first responder discount. We highly recommend Arsenic test add-on for add'l \$50.
