

# Classroom Physical Environment Equity Walk Through Tool

## DESCRIPTION

This Equity Walk Through tool was designed to support educators in fostering an ongoing lens of cultural responsiveness through a critical examination of their educational spaces. It is a valuable tool to use as a springboard for expanding perspectives and creating opportunities for open, honest dialogue and reflection regarding current practices.

## SUGGESTED USE

This tool is written to be used as an activity for teams, journey partners, students or for personal reflection to gain insight into the way your own biases and preferences manifest in your physical spaces. This will help you recognize where you need to bring forth more diverse representation, voices, perspectives, and experiences to ensure that the school's student population as well as our diverse world at large is authentically represented and reflected.

## GOING DEEPER WITH EPOCH

If you are interested in support using this tool or creating your own based on your specific needs, we would recommend our online **Skill Building Library**. Participants will deepen their knowledge around the needs of marginalized groups, explore institutional inequities and build awareness, empathy and understanding while changing educational outcomes for those most at risk.
