A TREE FOR A TREE

Rooted in the small-town community of Galax, Virginia, Vaughan-Bassett is the largest manufacturer of wooden residential furniture in the United States. It is no secret that our local craftsmen and the surrounding Appalachian forests create a rich environment for company growth and success.

For every Appalachian tree that is cut down to build our furniture, another tree is planted in its place. We are making a sustainable future for America's small towns, forests and companies.

Sustainably Made
