Sleepers

Mattress Sizes

Twin (71.5" L x 32" W)

Full (71.5" L x 52" W)

Queen (71.5" L x 60" W)

Styles

418 Leah (Twin, Full, Queen)	600 Amanda (Twin, Full, Queen)
435 Mackenzie (Queen)	613 Olson (Twin, Full, Queen)
491 Natalie (Queen)	620 Piper (Queen)
494 Collins (Full Sectional Only)	681 Bexley (Queen)
593 Kennedy (Full, Queen)	

Features

Benefits

Tubular Steel Construction	Greater stability and durability
One-Piece Tubular Steel Legs	Increases side to side stability and safely supports more weight than competitor's "blade" leg design
Dual Upper and Lower Crosswire	Sleep support system improves comfort and prevents the rollover effect typical of most other sleep sofa designs, and the recessed middle support eliminates the uncomfortable cross-bar effect inherent in most other sleep-sofas
Helically Suspended Synthetic Mattress Deck (Trampoline Style)	Designed to conform to the body and provide the finest sleeping comfort in addition to a long, useful life
Double Locking Head Rest	Tilts head up and secures on both sides providing additional stability and support while reading or watching television
Balanced Low-Profile Linkage	Designed to open and close with little effort or strength
Low Profile Steel Frames Sits like a Sofa, not like a Sleeper!	Sides are recessed well below the mattress surface. This allows for a much safer (no pinch points) and more comfortable nights sleep.
Mattress Retainers	Holds the mattress in place for a more comfortable rest
Tilt Forward Position	Features two lift springs to lift the sofa up for easy "tilt forward position" for cleaning and vacuuming

*Same sofa warranties apply per previous page as listed. See additional warranties on mattresses below.

Mattresses

Options

Supreme Comfort Mattress *Standard on all sleepers	5 1/2" thick coil mattress, allergy, odor and mildew free material * 5 year mattress warranty
Slumber Air Mattress Option	Code MA 10-inch thick mattress- 4" innerspring coil base on bottom and 6" air mattress on top * 5 year mattress warranty, 1 year electric pump warranty
Tempur Response Memory Foam Option	Code MT Quilted top layer with 2" Tempur Response Memory Foam on top of a 3" high density foam for complete body support * 3 year mattress warranty

Designer's Choice

The Designers Choice line completes any room and adds the finishing "jewelry"! LZB Designers Choice chairs are designed to fit with other upholstery groups and can be used as stand alone accent pieces in hard to decorate areas of the home. Also, you may use as additional seating in the bedroom, foyer, home office or other rooms of the home.

La-Z-Boy Classics

A line of high-leg and low-profile designer recliners that look like stationary accent chairs!

028 Prefix - 2 Position Classic High-Leg Chair	Great for TV viewing and reading
295 Prefix - 3 Position Classic High-Leg Lounger	Offers a full-layout position with adjustable reclining back tension and loose seat cushions and non-removable backs
P29 Prefix - High Leg Power Reclining Chair	The P Prefix adds power to the 295 classic high leg recliner Two button power operation with USB charging port
29U Prefix - High-Leg Reclining Chair with additional Power Head Rest, gives headrest an additional 55° of head tilt	The 29U Prefix adds power head tilt to the 295 classic high leg recliner. Two button power operation with USB charging port RW (right wireless remote) comes standard on select styles. Upgrade to an LW (left wireless remote) if desired at no charge
265 Prefix - Reclining Chair (sell with matching ottoman)	Looks like stationary chair with hidden reclining feature in the back

La-Z-Boy Complements

A collection of distinctively different chairs and ottomans designed to correlate with the La-Z-Boy major upholstery line or to be used as stand-alone accent items

Swivel Rockers (205)	Swivel Gliders (225)	Chair + ½ (655)	Two Arm Chaise (20C)
Swivel Chairs (215)	Stationary Chairs (230, 235)	Ottomans (024,240,245)	High Leg Swivel Chair (210)
Two Arm Chair with Storage (2SC)		Sectional Armless Middle Chair (60M)	

Features

Benefits

Pie-shaped swivel bases (no spider bases)	For greater stability
Swivel mechanisms feature a ball-bearing assembly	Smooth and easy 360° spin around motion
Kiln-dried hardwoods, high quality furniture grade laminates and oriented strand board (OSB)	For longer lasting strength and durability
Contour Cut 100% Virgin Poly Foam (Made in USA)	No recycled fillers are used cushions do not break down over time
Fabrics & Mechanisms are Performance Tested For Durability (Independent Labs)	For longer lasting durability over time
All Power Upholstery Includes a Battery Back-Up	Gets you back into an upright position in case of a power outage

All Power Units Carry a 3 Year Motor and Electrical Components Warranty / Battery Packs carry a 1 Year Warranty

OSB Oriented Strand Board

**A high end technologically advanced wood, and the strongest material used in furniture manufacturing. This is an amazing selling feature!*

OSB is strong and durable. It does not warp or separate, and moisture is not an issue. Knots and grain weakness are a non-issue

OSB from LZB consists of 11% more material than ply, and has superior strength

OSB out-performs current frames in strength testing by 8-10%

OSB holds nails, staples and other fasteners better than "ply" products

OSB is an engineered material that we can control. We develop a recipe that best suits the purpose of the components we are using to enhance the strength and durability of the product. No formaldehyde is used in manufacturing process

OSB is custom manufactured in the USA to La-Z-Boy reclining standards to insure the longevity of the frame and offers a limited lifetime warranty

Style meets comfort.

Features		Benefits	
	SMOOTH UPHOLSTERED BACK WITHOUT SEAMS	Looks beautiful floating in a room because it doesn't look like it would recline.

Lithium-Ion Rechargeable Battery Pack

- Code 0881YC-Duo Battery Pack** (styles with two reclining sides)
- Code 088BP1 Duo Battery Pack** (style with one power supply)
- Code 088BP2 Duo Battery Pack** (styles with two power supplies)

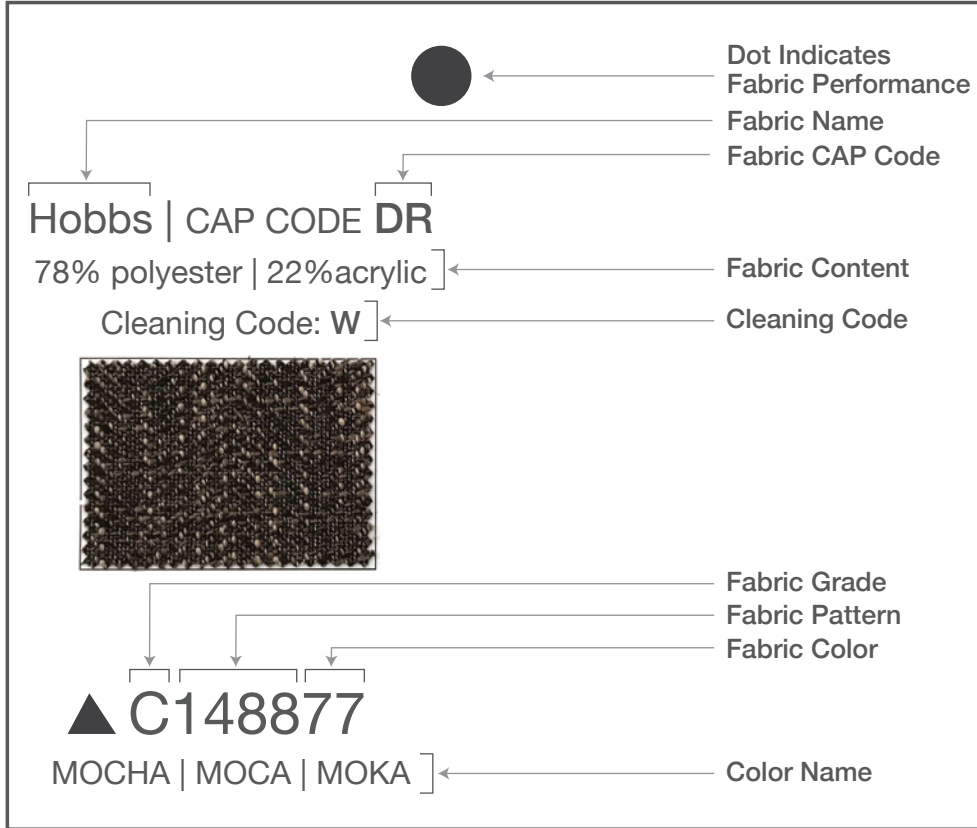

Features	Benefits
Universal Design with Dual Input and Output Connectors	Delivers wireless power to all LZB Power furniture (Excludes Lift Chairs)
Wireless Power to Operate Furniture	Wireless power allows for carefree operation and the flexibility to place power reclining furniture anywhere indoor, without the need to be plugged into a wall outlet
Built-in Mechanism Safety	The battery pack has a power output limitation that will cut power to the reclining furniture if an obstruction is encountered that prevents the reclining mechanism from moving
Low Battery Signal	An audible low-battery signal (beep) is transmitted when the battery pack is near the end of its charge, alerting the consumer that the battery needs to be recharged. A few full reclining cycles are remaining when the first low-battery signal is emitted.
LED Charge Status Indicator Light	The battery pack includes a LED charging status indicator light that flashes red while charging and changes to a steady green when fully charged.
UL Listed Product	La-Z-Boy prides itself in providing safe products. Our battery pack is listed to both the US and Canadian safety standards. Sell with confidence knowing the battery pack is safety-tested and certified!

Note 1: Rechargeable battery pack replaces the power supply. Styles that include two power supplies, such as the PowerReclineXRw™ reclining sofa and loveseat, require two battery packs, one for each reclining end if both ends are to function at the same time and not be connected to the main power source.

Note 2: Several variables effect the number of full cycles remaining at the first low-battery signal, such as occupants size, ambient temperature, battery aging, etc., which prevents an exact number from being placed on this feature.

Fabric Information

How to read a fabric swatch

Fabric Durability & Performance

- Normal** (Black Dot)
 This fabric is recommended for use on all La-Z-Boy upholstered furniture
- Por Performance** (P Dot)
 This fabric is recommended for use on all La-Z-Boy upholstered furniture. These fabrics have superior stain and fade resistance, long lasting durability and are easily cleanable
- Medium** (Green Dot)
 This fabric is recommended for use on sofas, sleep sofas, duo™, La-Z-Boy Classics® and occasional chairs. It is not allowed for use on recliners, motion sofas or motion modulares
- Light** (Red Dot)
 This fabric is recommended for use on sofas, sleep sofas, and occasional chairs. It is not allowed on recliners, motion sofas, motion modulares, duo™ or La-Z-Boy Classics®

Cleaning Code Instructions

- W** Use a water-based cleaning agent or foam. Professional cleaning is recommended
- S** Use a mild, water-free dry cleaning agent. Professional cleaning is recommended
- W-S** Either water-based cleaning agents or dry cleaning solvent or foam-type cleaner may be used. Professional cleaning is recommended
- X** Do not use a foam or liquid cleaner of any type. Vacuum or brush lightly to remove soil. Professional cleaning is recommended

Unique Fabric Characteristics

Rayon Chenilles: Shading is an inherent characteristic of this type of fabric and it is not to be considered a flaw. (Swatches will be labeled to determine if this is a characteristic of the pattern.)

GREENGUARD Gold Certification

All La-Z-Boy branded upholstery products are Greenguard Gold Certified

GREENGUARD Gold is one of the highest levels of environmental certifications available and is awarded to products that meet the most stringent standards for indoor air quality.

- Certified for low VOCs/low chemical emissions
- Built to contribute to cleaner, healthier indoor air
- Not introducing harmful chemicals into the customer's home, keeping the people they love safer and healthier

La-Z-Boy's high-performance iClean fabrics are perfect for homes with children, pets, and everyday life!

Innovative technology surrounds each fiber, repelling spills before they turn into stains

Easy to clean

iClean fabrics are soft to the touch

iClean fabrics have a 3 year limited warranty

Covered stains include: Beer, chocolate syrup, coffee, washable magic marker, dirt, ice cream, jelly, juices, ketchup, milk, salsa, soda, tea, urine & wine

Stains that are not covered include, but are not limited to:

Oil-based products (such as salad dressing and lotion),

Wax-based products (such as candle wax and crayons), Ink marks, Mustard

This icon added the top of a fabric swatch indicates that it is an iClean Fabric

Step 1

Water bottles are recycled at your local recycling facility.

Step 2

Bottles are sorted, washed and chopped into flake.

Step 3

The flake is blended, melted and turned into chip.

Step 4

Versatile fiber is extruded from the recycled chip.

Step 5

The fiber is used for conserve Sustainable Fabrics.

Conserve™ is a set of fabrics exclusive to La-Z-Boy made with recycled water bottles containing between 34-40% recycled product.

Chairs / Recliners = 50 water bottles | Love Seats = 80 water bottles | Sofas = 110 water bottles

This icon added the top of a fabric swatch indicates that it is a Conserve Sustainable Fabric

- Mineral-Based Fabric that Blends Science with Wellness and Recovery
- Transforms Natural Body Heat into Energy
- Relax - Recover - Perform - Creates Increased Energy
- Improves Circulation

This icon added the top of a fabric swatch indicates that it is a Restore Nanobionic Fabric

Pet Friendly Fabrics are defined as performance grade fabrics that meet the highest standards of cleanability and durability. Currently all Pet Friendly Fabrics are also iClean Fabrics. See price book for a full list of Pet Friendly Fabrics

Upgrade to Leather

Leather Info

The appeal of leather is timeless

Leather outlasts fabric four to one, having a useful life of 15-20 years versus four years with some fabrics

Leather will not tear and is twice as strong as any fabric, even along the seam lines

Today's finishing techniques assure that leather will not rub off, fade, crack or peel

Leather will breathe and assume body temperature rapidly and is instantaneously comfortable...warmer in the winter and cooler in the summer

Leather is a practical material, ideal for busy lifestyles. No special solvents or cleaners are needed to keep it looking good. Simply dampen a cloth with water and a mild detergent to wipe

Leather ages well. It will not wear like fabric covers. Instead, fine leather acquires a fine natural patina and will become more supple over time. Leather wears "in", fabric wears "out"!

The leather hides that La-Z-Boy uses are purchased globally and are a by-product of the meat industry

La-Z-Boy uses only "top grain" leather in the manufacturing process

Top grain leather is the outer most portion of the hide and the first layer of the leather when split. It is the most desirable for it's strength, softness, and overall look and feel

Select styles use an LM-Vinyl Leather Match on the sides and backs in non-stress areas to minimize costs and remain competitive in the market place

Leather is a great material for those with allergies and dust sensitivities

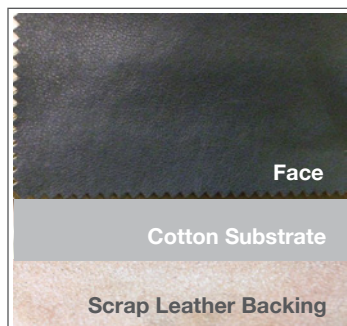

Leather is priced by letter grade, the higher the grade the more expensive the leather

LZB Leather is characterized as:

- **Authentic** Hide is more natural, with lighter top coating and the "hallmarks of the trail" showing through (*indicated by a brown dot on leather swatch*)
- **Performance** Hide is corrected and sprayed again, with additional pigment and top coating, giving the leather a more consistent look and feel (*indicated by a teal dot on leather swatch*)

Renew Fabric

"The look of leather without the leather price!"

- Performance Fabric that is highly durable
- Face - Urethane Foam that is heat bonded to a Polyurethane Film.
- Center is a Poly Cotton Substrate
- Backing is made up of a minimum of 17% and up to 52% recycled scrap leather
- All layers are bonded together, washed and tumbled to perform like leather, mimics the look, texture and feel of real leather
- Scratch, Stain and Fade Resistant
- Cleans with Soap and Water
- Eco-Friendly

Select Leather

Select leathers married to a specific frame!

- **Married leathers to specific frames**
- Names of married frames appear on the back of the Select Leather swatches so you know you have the right match!
- Top grain leather on all stress points where you sit, touch and feel
- LM or “Leather Match” uses vinyl or polyurethane only on sides, backs and arm posts. Why? To be competitive, leather is expensive!
- Some styles may have an LS or “Leather Split” which uses a second split of leather on sides, back, arm posts. Check catalog and price list for select styles
- Cap Codes available: LM, LS, LL
- All “Select Leathers” contains the style number that they are married to on the back of each swatch

***An LL cap code in the catalog indicates that the frame can be customized with a custom leather from the Custom Leather or Custom Leather Plus handle**

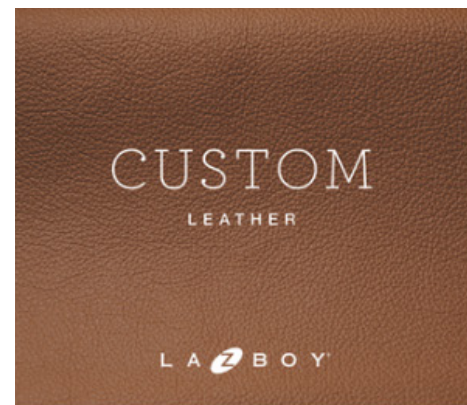

NOTE: DO NOT USE this handle to order custom leather (LL), this handle only contains leather that is married to a specific frame.

Custom Leather

Get “Cozy” by upgrading to Custom Leather with a moderate upcharge!

- 10 colors to choose from in “Cozy” Tannage BL9810
- BL Grade w/LM Cap Code
- Custom Leather Match on sides and back
- Genuine Top Grain leather matched with urethane sides (faux leather)
- Can be added to all Motion, Modulares, and Recliners (on applicable styles, see price book)
- Top Grain leather on all stress points

***Custom Leather program with BL Leather grades not available on all styles**

NOTE: Use this handle to order custom leather in the BL Leather grade. This handle should contain two leather swatches of “Cozy” with 10 different color variations.

Custom Leather Plus

Use this handle to customize with top grain leather all the way around your piece!

- Customize your leather choice by placing a custom order
- Use the Custom Leather Plus handle to choose your custom leather
- Custom pricing per leather grade (check price list for details)
- Customizing includes “top grain” leather everywhere (No LM-leather matching on sides and backs - top grain leather only)
- Grade of leather available DL, EL, FL, GL, HL, JL
- Hand cut and sewn
- Antimicrobial Leather available. Protects the leather against mold, mildew and odor causing bacteria.
- iClean leather available. Stain-resistant • Easy to clean • 3 year limited warranty

***An LL cap code in the catalog or price book indicates that the frame can be customized with any leather in the Custom Leather Plus “Custom Order” handle**

NOTE: Use this handle when showing and ordering custom leather options. Style number must indicate an “LL” cap code in order to customize with Custom Leather Plus handle.

Edwin J. Shoemaker and Edward M. Knabusch

Getting Started

In 1927, in a garage in Monroe, Michigan, cousins Edwin J. Shoemaker and Edward M. Knabusch designed the reclining wood-slat chair. This chair featured a hinged back which allowed the seat to come forward as the back reclined. This was the first La-Z-Boy patented feature which the cousins applied for back in 1929.

By honoring the past and embracing the future, La-Z-Boy has stayed true to the principles of our founders. We continue to bring quality and comfort to people around the world, as we enrich people's lives by turning houses into homes.

La-Z-Boy is 96 years old this year

La-Z-Boy is the largest manufacturer of recliners in the world

La-Z-Boy is sold in over 60 countries worldwide

La-Z-Boy currently operates 7 different manufacturing plants

*Dayton, TN • Newton, MS • Neosho, MO • Siloam Springs, AR
San Luis Rio Colorado, MX • Torreón, MX • Ramos Arizpe, MX*

La-Z-Boy is the largest fabric buyer in the world

La-Z-Boy has nearly a 100% name brand recognition making it the most recognized furniture brand in the world

La-Z-Boy has always been known for being a American Made Company

In 2020, manufacturing plants were opened in Mexico due to increased demand over the Pandemic

Now La-Z-Boy is made in North America and is described as a company with American Heritage
