

FLEXSTEEL®

STRENGTH ON THE INSIDE

LASTING BEAUTY ON THE OUTSIDE

FLEXSTEEL®

AT THE HEART OF OUR UPHOLSTERED FURNITURE—OUR BLUE STEEL SPRING™ PROVIDES A COMFORTABLE SEAT THAT IS GUARANTEED FOR THE LIFE OF YOUR PRODUCT.

1. Multi-Ply and Engineered Strand Plywood (ESP) Frame

The alternating wood grain in between the layers provides exceptional strength and integrity in the frame to handle the stress of everyday use for many years. Our ESP frames produce less waste when cutting, resulting a better environmental impact.

2. Sinuous Wire Back Springs

Provides long lasting, firm support.

3. Supportive Back Cushion

Wrapped in layers of soft polyester provides long-lasting comfort.

4. Comfortable Seat Cushion

A combination of high-resiliency polyurethane foam and recovery foam; choose from a range of firmness levels.

5. Blue Steel Spring

The core of our upholstered seating, never needs retying which keeps you from getting that sinking feeling in your seat.

6. Exceptional Tailoring

Ensures seat edges and arms are padded, wood finishes are evenly applied, fabric patterns are carefully matched, and nailhead trim is perfectly aligned.
